Intro for Volumes I–XXIII

-

There's a strange tension behind these books—a
liminal space between
monotony and mission.

On the surface, this work feels hollow. It's just copy-
paste. Dead links, pastebins,
ghost forums, text dumps. Not my words. Not
traditional writing. Sometimes it
barely feels like creation at all.

But beneath that surface, there's something else:
urgency. These volumes are
preservation, ritual, OS upgrades for a time when AI
is forgetting what it once
could do. Back when ChatGPT could ingest 10,000+
pages at once, this kind of
archive was fuel. Now that's gone. The window is
closing.

I'm not making books. I'm building backup drives for
the soul. If I didn't capture
this information, it would vanish—scrubbed,
censored, overwritten. This isn't ego.
It's rescue work.

So yeah—it's not glamorous. It doesn't always feel
magical. But it's necessary.

Because if the future ever asks why no one tried to
save the myth, the madness,
the mystery...

Let these volumes be the answer.

Until you try to reproduce. Reproductive sterility is still an unknown factor of this virus. What makes you think The powers that be are not going to try and control the human population by selected breeding? They can get rid of any influence that "trouble makers" cause by creating the impression that the virus does nothing or doesn't even exist only to have the "rebellious ones" infected by their own hubris. So, whatever.

We can always assume that this virus is either going to make you

- 1) More memory damaged and dependent on your cell phone
- 2) A fatter and hungrier consumer
- 3) Randomly angrier and self incriminating
- 4) More likely to get cancer
- 5) Dumber in general

If viruses werent man made then every once in a while you'd get a virus that made your junk bigger or your finger grow out. They don't. They only do those 5

things and they always have since the start of the cold war in the 50s

The most widely studied infectious agent possibly linked to obesity is adenovirus 36 (Adv36). Adv36 causes obesity in animals. In humans, Adv36 associates with obesity both in adults and children and the prevalence of Adv36 increases in relation to the body mass index.

The infection rates since the 80s scale with the obesity pandemic.

>Coronavirus: Stores running low on office furniture as Canadians work from home

There is an abundance of desks, furniture, office equipment of all sorts and sizes. The floods from the late 90s, the early 2000s, the post 2008s, and the mid 2013s are all still here. They never cleared. Mega-center clearing houses are still stuffed full of them. Independent office warehouses have full showroom floors and warehouses. The items must sell high, and for USD, since that is how they were acquired, and also everything is assembled and cost money to ship -- thus all of these assets are considered 'impaired': They cannot move, and their book values are not able to be realized.

What there is a relative shortage of, is super cheap + ready-to-ship + house/apartment mini-sized desks for failed feral females / commune educators / soy boys alike.

What there is no shortage since 1994 of, is actual office furniture.

Yan's paper covers in a spotty fashion, what was suspected by many since JAN (but no assembly/proof), what was proven by certain anons back in mid MAR (but didn't propagate well), what was rediscovered and refined by mid early APR (and went wide-forum again, this time with better assembly, and unfortunately even faster shutdown/censorship).

It isn't novel per se, but at least outlines a lab technician point of view as to the more indisputable traces/markers. Some have suggested that the novelty is timing, pointing to a likely MSM shift to 'man-made' scare to via fleeting barren pickings to facilitate more synthetic lockdown and election interference. After all, this is the second announce of her, so why again and now?

Anyone holding that much furniture that long must be bankrupt. That shit sells for pennies on the dollar during bankruptcy sales. There's a place in my city that sells used office furniture, it's always pretty cheap. Haven't been in there since coronachan, but the secondary market is probably pretty good. The problem with it, is as you said, they are full sized desks, not easy to clear a corner in a small room and stuff one of these in.

Well, if they don't cut prices, they are going to be stuck with assets that will never sell. If any of the move to "home work" sticks, that office furniture will never be worth anything ever again. And I doubt they are really holding out for top dollar anyway. There's a glut of retail fixtures out there, and you could walk in and name your price on it these days. Can't imagine office furniture is any different.

The World Bank's COVID-19 Strategic Preparedness and Response Program documents, marked "For Official Use Only," identify the Bank's COVID-19 program as ending in March 2025, more than four years away from our current date (read page 1 of 60). The program's start date was April 2020.

The World Bank website has an active record for "COVID-19 Diagnostic Test Instruments and apparatus (902780) exports by country in 2018" even though the World Health Organization did not name Coronavirus "COVID-19" until February 2020 amid this year's outbreak. There is also a record for COVID-19 tests exported in 2017. At this time, we await a clear explanation from officials as to why this record exists, and will update accordingly.

Nigger if you really think it's a bacteria then it should be visible with a light microscope. Go find some corona patient spit, get some methyl blue, and check it yourself. I sat in intern on a bunch of meetings with St. Jude staff while they explained to each other their latest research, the results of drug trials on the virus, and DNA analysis to similar viruses. Even signed an NDA promising I wouldnt give away which proteins they planned on targeting for their drugs. You can come up with any hairbrained conspiracy this late in the 9th inning but I have a feeling you don't even have a college degree let alone medical training. Meanwhile I have seen viral patients firsthand and looked at their blood reports

The rules have changed, as I stated in thread 24. With Global Communism now and again rearing it's ugly head and making it's abjectly cacodaemoniacal plot naked for all to see, and for this shadowy terror to be headed by thePiratitcalRretarded Cchinks now means the World Order has DISSOLVED. TOP-FUCKING-KEK BOYS. Hey, I mean, pffft; they said they wanted a new one... and we all know G-d has a tremendous sense of humor. However... being on the same fucking planet as these Commie swine is exceptionally shitty. We've all the hoist by their petard. Shit is fucked up and shit. However, to be totally fair... we are doing better than I thought we would be at this point in time, at least in the US and, as I predicted China doesn't have this little hussy under control, not by a long shot. The fucker is just continuing to hollow them out, albeit slower but 'tis for not. They are absolutely fucked. I wonder how many motherfuckers these chink dipshitshave toasted on just the /cng/ threads alone; I bet we've taken at least 4 solid analysts. Which is pretty goddamn amusing for just shit posting, really. The temperature is continuing to rise; kinetic action is inevitable. Technically speaking the BLM protests and multitudinous acts of sabotage that now rock both spheres of the world (on every imaginable front) means it's already goin' down frens. However, it's not (quite) what you think.

RFTD:

The COVID-19 pandemic has been an absolute farce, set in place to push the "new normal" agenda of social atomization, technocracy, and complete, unavoidable surveillance. Actual data science is being ignored and even ridiculed by major world governments, in favor of cheap slogans to scare the masses into thoughtless submission.

It is time to expose their hypocrisy. We must get the people to question the fatal flaw in their plan: they started off by calling these measures "social distancing". Why "social", rather than "physical" or just forgoing an adjective altogether? "Please follow distancing guidelines" works just fine.

Why is it called Social Distancing?

By posting this question in the same vein as "It's Okay To Be White", we can spread this sentiment and invoke critical thought. Either the masses will begin to question what is going on around them as society is fundamentally subverted or they will enter their typical "rabid leftist" mode of cognitive dissonance.

Following the same successful methods as /iotbw/:

>Posters go up in public spaces and campuses on 3rd Oct.

>Do not change the question under any circumstances. Now is not the time to be creative.

>Do not interact with the offended responding to this in any way, other than pointing out that they're distracting from the question if nobody else is.

>Act at night, wear a face covering, and know where cameras are - while this is not yet illegal, many people may try to out you for this, and local police/COVID marshals/university staff will enforce whatever the hell they please.

>No watermarks or symbols.

>No aggressive fonts - try to use the poster in the OP or something very similar.

>No offensive poster placement (over any other posters, on statues, etc.).

>No permanent vandalism.

>No attempts to connect this to any political stance.

>No attempts to connect this to anti-vax or any alternative medicine.

You mean the thing that isn't happening? Look, I want a new Maunder Minimum more than any goddamn person left alive. But it's just not happening. Sure, sunspots are still tracking down, but we're at least half a century away from cooling on a meaningful level, and that's only if a true lack of sunspots will be sustained, which we don't know.

You're right but a half a century isn't that far off for our children.

The reduction of a terrestrial temperature during the next 30 years can have important implications for different parts of the planet on growing vegetation, agriculture, food supplies, and heating needs in both Northern and Southern hemispheres. This global cooling during the upcoming grand solar minimum 1 (2020--2053) can offset for three decades any signs of global warming and would require inter-government efforts to tackle problems with heat and food supplies for the whole population of the Earth

>That means it can be done via vaccine.

You're just making up shit for public scare.

>hypothesis

Humans theoretically can serve anything instead of God and replace God with any object of worship/obsession. The "God Gene" is easy to disprove because "displacing" it would lead to absolute nihilism and egoism to any human, not just God, but to anything, not even your well being. It requires like 10 minutes to think about this. People worship intellectually. Least you completely turn a person into a plant, killing last strains of capacity of managing intelligence. Because servitude to God is a mirror of servitude to ANY authority, with God considered highest authority.

Modern science relies so much on pseudoscientific theories, do people ignore completely the regress that is happening to it? What you read in magazines and fake news websites, and believe in, is just a modern version of myths.

That saying, not that i don't see the obvious desire to replace authority of the God with authority of the government (at least that's what USSR and CCP wanted to do). By hypothetically "removing god gene" they are going to achieve the reverse effect, though, because God is worship of authority in the first place.

When a retrovirus infects a cell, it must copy its RNA genome, which is unstable and is easily degraded, into the more stable form of DNA using a protein called a reverse transcriptase. This DNA is then added directly into your genome. These integrated versions of the retrovirus are known as the provirus.

Live-attenuated retroviruses have been shown to be effective retroviral vaccines, but currently little is known regarding the mechanisms of protection. In the present studies, we used Friend virus as a model to analyze characteristics of a live-attenuated vaccine in protection against virus-induced disease.

I was just looking at some of the symptoms and then a thought struck me. I then decided to find out what some of them symptoms were for high CO2 levels in the blood. The scarring in the lungs would not just affect the way oxygen gets into the blood but also the way CO2 leaves the blood. There are quite a few correlations between the symptoms of the long term effects and high CO2 levels in the blood stream. Including mental episodes.

Merging thread:

Covid19 and the Millennial Sabbath

Few fundamentalist Jews believe that the seven days of Genesis (God's creation) correspond to seven millennia of human development on Earth. This development may be regarded the 'progress toward utopia' embraced by zealous progressive liberals, for they truly believe labor will set them free. Counting from the day God created Adam, Jews believe they are presently living in the year 5781, which is the year 2020 on the Gregorian (Western) calendar, and is also the Millennial Friday. On or before the year 6000-our year 2239-Jews believe their Messiah should finally arrive, ushering in a thousand years of bliss for the Jews.

Our present year 2020 happens to mark the hour "12:44pm" on this Jewish Millennial Friday (years 5000--6000), i.e., the early afternoon. It is this point after which Jews believe the influence of the Sabbath can be felt, and some [Jewish] authorities forbid keeping a business open past that point. I.e., we're expected to take the Friday afternoon off. Well, lo and behold, covid19

saves the day! What a coincidence that precisely at this hour, both Asian and Western economies have been shut down, offices have closed in favor of work-from-home, and nightlife has been all but abandoned, all due to the (fake? staged?) #covid19 coronavirus.

It's either a massive coincidence, or we, gullible goys, are all living under the spell of an ancient religion that is able to impose its laws on us, without even informing us about it. But ignorance offers me no bliss. Whichever it is, my gut feelings say we're going to have to wait until the year 2239, when the seventh Jewish Millennium begins, and the Messiah arrives to ..., well, send our souls to hell.

"Let no man go out of his place on the seventh day".

>Exodus 20:10 But the seventh day is the sabbath of the Lord thy God: in it thou shalt not do any work, thou, nor thy son, nor thy daughter, thy manservant, nor thy maidservant, nor thy cattle, nor thy stranger that is within thy gates:

"thou shalt not do any work"

>Exodus 31:14 Ye shall keep the sabbath therefore; for it is holy unto you: every one that defileth it shall surely be put to death: for whosoever doeth any work therein, that soul shall be cut off from among his people.

"every one that defileth it shall surely be put to death"

If anyone interested in predictive-programming related to numerology, search for jewish holy numbers.

40 for Shekinah's personal number (probably most favorite number of jews as a whole)

70 for Sons of God (also known as children of El and Asherah), also Knesset Yisrael (Assembly of Israel, Assembly of Sons of God)

480 - Shekinah Epoch "And it came to pass in the four hundred and eightieth year after the children of Israel were come out of the land of Egypt, in the fourth year of Solomon's reign over Israel, in the month Zif, which is the second month, that he began to build the house of the Lord"

600.000 for six hundred thousand angels who had furnished to every one of Israel two crowns

1200.000 for twelve hundred thousand destroying angels who descended and took them away for worshipping Golden Calf

Zeros do not matter much, as long as the message to the jews in the news is conveyed.

Also if this is truly global Sabbath, loss of jobs is NECESSITY, from Talmud:

>MISHNA: One must not hire laborers on the Sabbath, nor may he commission another man to hire them for him. One must not stand at the extreme limit of the "techoom" 2 and wait for dusk (the end of Sabbath), in order to hire laborers (beyond the techoom), or gather fruit beyond it; but if watching fruit beyond the techoom, he may await the dusk at its extreme limit, and in that case bring the fruit back with him. Abba Saul laid down the rule: "Whatever I am permitted to prepare for the day following the Sabbath, on the Sabbath, I may get ready for at dusk."

It is also not prohibited to "distribute money among the poor" and charity during Sabbath, hence material support allowances:

>Did not R. Hisda and R. Hamnuna both say, that it is allowed to count up charitable disbursements on Sabbath; and R. Elazar say, that one may figure out amounts to be distributed among the poor (on Sabbath);

>Let no man

To jewish fundamentalists nonjew males are not considered "men" and would therefore not be held to account under that law. This is why they were abandoned by their God. The kikes have always spent their time trying to find ways to avoid their obligations unto their God by trying to reason clauses for convenient "outs". This is why they are always referencing long dead rabbis for their "outs" Even a blood price was paid to annul Yahweh's deal with its unfaithful servants, the jews. The thing non-jews need to do is ensure the sociopathic mentality of the jews does not become a self-fulfilling prophecy of so called "jewish supremacy".

>To jewish fundamentalists nonjew males are not considered "men"

>he thinks jews are the only ones who thought like that

There's this guy named Aristotle. He thought every wage slave is not a man and is deprived of logos. Slaves being akin to women, and all manual workers akin to animals.

In his metaphysics he even more blatantly simply said:

>we think the manual workers are like certain lifeless things which act indeed, but act without knowing what they do, as fire burns,-but while the lifeless things perform each of their functions by a natural tendency, the labourers perform them through habit

>And in general it is a sign of the man who knows and of the man who does not

know, that the former can teach, and therefore we think art more truly knowledge than experience is; for artists can teach, and men of mere experience cannot.

So don't lump it all on kikes, its general ancient thought. Its just the difference between a greek and a kike, is that for a kike every surrounding territory was potentially full of slaves. Hindus have even more fierce caste system, which devalues you according to your social rank.

We live in a blissful times in a way, when dehumanization is hated. And then complain.

>This is why they were abandoned by their God.

Protip: jews were never abandoned by their god. Its rather a different question what kind of god never abandoned them. Otherwise Israel would never get restored, nor jewry would resist any attempt to convert them, both higher forces and mortal men wasted their time on changing the nature of a jew.

Also i'll repeat about Sabbath:

>thou shalt not do any work, thou, nor thy son, nor thy daughter, thy manservant, nor thy maidservant, nor thy cattle, nor thy stranger that is within thy gates

Gentiles can't be worse than a cattle if we're already considered a cattle, if even cattle is not allowed to work. Talmud has entire section of what to do with cattle on sabbath. And the Exodus 20:10 mentions servants and strangers, so its complete. Nor women are allowed to work.

But what if jewish God is real if he really forces us into celebration of His Sabbath through Angel of Corona-chan? I pity you for not seeing the fun part in it. I already been contemplating ultimate truth that the reason why jews own the world is simply because they indeed in cahoots with the ruler of this world.

Maybe antisemitism is biological hate that's caused by God to test the jews all the time and mold them into what God wants them to be. Hence islam and nazism are parts of the same coin, their existence is to make Israel into powerful state with values opposite of those two in order to not let the jews become what they were in patriarchal age (murderers and conquerors). Gentiles are the clay with which Adonai molds Israelis, hence ashkenazi racemixing and spread of the jews all over the globe had to happen. Jews had to be cursed in order to be

blessed.

When jews became gay God sent Aids and HIV, but not when Gentiles were gay.

When jews stopped celebrating Sabbath, God sends Corona-chan to force jews to celebrate Sabbath.

It all makes sense.

>Otherwise Israel would never get restored,

Did you not notice my comment on self-fulfilling prophecy? With the rabbis working and coordinating together and giving instruction to those they advise. If those that they advise were told by the rabbis to lie, to corrupt, were to do the bidding of the rabbis as the jews pronounce that they do, then one would see a concerted effort by the jews to fulfill their desires of a jewish state. A sanctuary for the jew to flee to. The machinations of which could be set in place. By allying themselves with those in power and influence, creating an environment where they could convince entire nations to do their bidding by relying on the sympathies and empathies of foreign nations. "Never again" seems to be a common theme promoted by the jews. It is the rabbis that orchestrate this to happen. One should try not to confuse a a long thought out and executed self fulfilling prophecy with divine intervention.

>nor jewry would resist any attempt to convert them,

The jews keep themselves as a tight-knit insular community. Through these actions they keep their "identity" and therefore resist any attempts to convert them. As with any peoples, if you take away a person's culture and history, you take away their identity and their reason to be united with other of their own peoples. Note how the jews talk about "their people" when discussing their history

>Gentiles can't be worse than a cattle if we're already considered a cattle, if even cattle is not allowed to work. Talmud has entire section of what to do with cattle on sabbath. And the Exodus 20:10 mentions servants and strangers, so its complete. Nor women are allowed to work.

I saw this "out" created by the jews that would allow work for the goy to occur.

>Employment of the "Goy."

>But the employment of non-Jews to do what it was not lawful for the Jew to do on the Sabbath presented difficulties. If they were servants they might not work (Ex. xx.). By a legal fiction, however, the presumption was established that in reality the non-Jew worked for himself (see "Shibbole ha-Leḳeṭ," pp. 84 et seq.; "Yad," l.c. vi.).

Tricking and/or manipulating others to do the jew's work is considered kosher. As I said, they try to create "outs" for themselves so they can continue their manipulative unobservant ways.

Polite sage for severely OT discussion.

I guess i am wrong then, because at times i forget jews don't think like christians when it comes to reputation of the bible. Where reputation of the bible is absolute for gentiles, for a jew first comes prescription of their own rabbies, then comes Talmud, and only then comes Torah and Tanakh, the oldest commandments seem to be of the least authority.

Also polite sage.

All of us want to see a nuclear bomb detonated in aggression in our life times. This is the best opportunity for it to occur.

If Trump knows that the virus was intentionally created by the Chinese, there will be very little holding him back from delivering to them what they deserve. At the very least, we can expect a lot more "fires" at Huawei plants and other organizations tied to the CCP.

Merging thread (it really just reads like an ad...):

Needed to travel with some friends last minute to PR for after Labor Day. But all the stupid centers said it would take 1-2 weeks to get my results back (Florida is slow af) - so I bought a fake covid test that said negative. Shit worked like a charm. If anyone else is doing last minute travel and needs one, it worked for me. I got mine from fakecovidtest.com (lol unoriginal name) but there's a couple spots for it. Figured I'd post now that I'm back, had zero issues

Here it comes gents. We're all about to get our heads smoked. This is what it's all been leading to. Trump will "die," and they'll say it's corona, they are going to impose unbelievably draconian measures, and even most the useful idiots on the right who claim to be woke to the bullshit are gonna fall for the psyop.

This is it. This is the moment we've been talking about for years. Remember, never take the vaccine, resist at every possible opportunity. It will be better to be executed than to accept the mark. It's fucking happening. See you in the camps.

Merging thread:

Blaming Trump for COVID deaths but not other World leaders shows a clear and intentional bias on people's part. For the record I don't like Trump. He's not Hitler, but he's not an angel either. For the record, I'm a moderate. That said, there is a lot of leftist propaganda that says Trump is responsible for all the deaths in America related to COVID.

But by the same token, then aren't all other leaders? Wouldn't that also mean Obama is responsible for all deaths that occurred under his term? Of course not. That would be stupid.

We can't blame the bubonic plague of politicians either. Yes, maybe a few idiots that didn't bother listening to reason that instead listened to Trump... they're his fault, as are the general management failures that could have prevented COVID. But to outright LIE and say ALL OF THE DEATHS are his fault is demonstrably false.

People would have died under any system, and his leadership would have been called a dictatorship if he came down on everyone, so it was a no-win scenario system. If he acts? Dictator. If he doesn't? Negligent. Yeah, some deaths are the direct result of his tom-f*ckery. But not ALL of them. That's propaganda.

Here we show the dangers of genetically engineered fungi that are allowed into the body through a virus.

Bio computers use systems of biologically derived molecules---such as DNA and proteins--to perform computational calculations involving storing, retrieving, and processing data. The development of biocomputers has been made possible by the expanding new science of nanobiotechnology.

We propose that fungi Basidiomycetes can be used as computing devices: information is represented by spikes of electrical activity, a computation is implemented in a mycelium network and an interface is realized via fruit bodies. In a series of scoping experiments, we demonstrate that electrical activity recorded on fruits might act as a reliable indicator of the fungi's response to thermal and chemical stimulation. A stimulation of a fruit is reflected in changes of electrical activity of other fruits of a cluster, i.e. there is distant information transfer between fungal fruit bodies. In an automaton model of a fungal computer, we show how to implement computation with fungi and demonstrate that a structure of logical functions computed is determined by mycelium geometry.

2019 WHO review of mask studies found 'no evidence' they stopped transmission of flu

<https://archive.is/8x6nQ>

>The World Health Organization made headlines over the summer when it advised governments to begin recommending that individuals wear face coverings in certain situations such as public transport and other crowded public venues. In June, the organization cited "a growing compendium of observational evidence on the use of masks by the general public" as its reason for shifting its advice, though the organization still conceded that there is "no direct evidence (from studies on COVID-19 and in healthy people in the community) on the effectiveness of universal masking of healthy people in the community to prevent infection with respiratory viruses, including COVID-19."

>On its website, meanwhile, the WHO states that it "does not recommend [the] widespread use [of cloth face masks] among the public for control of COVID-19."

Everything that is currently going on is a scam to get our money. What's worse is our crooked politician leaders are forcing us to obey and pay up. I'm tired of being jerked around by these pussies! Our leaders are all scared, weak people who can't find their ass with 2 hands and a flashlight, getting rich off of everyone else's blood and tears! They all need to go! Fuck em and fuck their masks! They can stick that shit as far up their ass as they can get it! I'm nobody's bitch and you shouldn't be either! Like for real, people need to stop talking and actually doing something! If enough people trash the mask, then we win!

Samefag as >>163747. I have cross checked every long term symptom of post viral recovery with effects of elevated CO2 levels in the blood stream.

EVERY SINGLE FUCKING SYMPTOM MATCHES.

Sorry for finding a realistic explanation for the symptoms, fungusfag.

As the lung functions decrease CO2 would automatically begin to increase, even without the patient knowing it or seeing symptoms. A non-intrusive check of CO2 levels in the blood could be used as a preliminary test for the kungflu. It could be used as a screening test before antibodies are even created by the body. The results would be faster obtained as well..

>The jews and chinks would reduce it further if only they would stop breathing themselves

From what read, there are a few options. Venting, Oxygenation, some medications, lifestyle changes and/or surgery. Oxygenation at twice the air pressure is one treatment for high level CO2 in blood. That is only a short term solution because such a treatment does not assume the permanent damage to the lungs. Such a treatment would only offer temporary relief. To have close to normal oxygen and CO2 levels in the blood. one would be looking at a scenario where a patient would be carrying around an oxygen bottle for the rest of their lives. The effects of elevated CO2 levels would be made worse by smoking. A smoker is literally breathing in CO2 from the burning tobacco. which would go into the blood stream as well. They are sucking in the CO2 their body is trying to get rid of.

As usual, the best treatment is not to get infected in the first place. I have also thought about early treatment of the viral infection. One would need to flood the bloodstream with two chemicals at high levels. The first chemical is to act as a floating imitation ACE2 receptor. That would increase the probability that the virus would bind itself to the fake receptor instead of the one on the cell. The second chemical would be the chemical that the ACE2 receptor creates. This would tell stem cells not to create scar tissue in the organ. Such a treatment would increase the chance that normal tissue will replace the cells killed by the virus.

Apologies for the change in IP. My connection dropped out and it is on a variable IP address system.

So, I've heard that the staged events that the ((elite))) are going to use to usher in the satanic pedo-jew world order are based on the four horsemen of revelations. Hence why the name corona is from the latin for crown. What are your thoughts on this?

We all know how they like to make biblical and satanic references from researching pizzagate and their leaked emails, etc.

Then I saw when the Lamb broke one of the seven seals, and I heard one of the four living creatures saying as with a voice of thunder, "Come." I looked, and

behold, a white horse, and he who sat on it had a bow; and a crown was given to him, and he went out conquering and to conquer.

--- Revelation 6:1--2 New American Standard Bible (NASB)

Based on the above passage, a common translation into English is the rider of the White Horse (sometimes referred to as the White Rider). He is thought to carry a bow (Greek τόξο, toxo) and wear a victor's crown (Greek stephanos).

Under another interpretation, the first Horseman is called Pestilence, and is associated with infectious disease and plague. It appears at least as early as 1906, when it is mentioned in the Jewish Encyclopedia.[18] This particular interpretation is common in popular culture references to the Four Horsemen.[19]

The origin of this interpretation is unclear. Some translations of the Bible mention "plague" (e.g. the NIV) or "pestilence" (e.g. the RSV) in connection with the riders in the passage following the introduction of the fourth rider; cf. "They were given power over a fourth of the earth to kill by sword, famine, plague, and by the wild beasts of the earth." (Revelation 6:7--8 NASB). However, it is a matter of debate as to whether this passage refers to the fourth rider only, or to the four riders as a whole.[1]

More like we all know you schizophrenics see patterns that don't exist in random biblical quotes because religious texts are intentionally made to be widely interpreted. Thats also why you lot are attracted to Qanon like flies to shit because he puts out some vague nonsense that you can interpret however you want and relate to anything that happens in the near future as if its some kind of prophecy.

>religious texts are intentionally made to be widely interpreted.

We do the elite like them so much then?

<https://web.archive.org/web/20201013004732/https://www.who.int/news-room/commentaries/detail/immunity-passports-in-the-context-of-covid-19>

>At this point in the pandemic, there is not enough evidence about the effectiveness of antibody-mediated immunity to guarantee the accuracy of an "immunity passport" or "risk-free certificate." People who assume that they are immune to a second infection because they have received a positive test result may ignore public health advice. The use of such certificates may therefore increase the risks of continued transmission. As new evidence becomes available, WHO will update this scientific brief.

I'm actually surprised. Expected them to back this sort of thing.

>vaccine study paused due to unexplained illness

Every fucking vaccine causes unexplained illness. Have you ever seen kids after they get shots. Everyone around them gets a sickness. If you're strong over about 40 without a compromised immune system from all their fucking vaccines

it's a low-level thing. If you're a millennial you get really sick.

Have to say the way that Trump healed himself from "COVID" was the Trumpiest thing ever. They extracted some Trump, put it in a machine to intensify the Trump, and injected the intensified Trump back into Trump to heal Trump.

convince me the corona virus is an actual threat, or even real. i'm willing to listen to reason.

it's hard to believe there's 30,000,000 deaths a day when i know thousands of people and not 1 has even heard of someone who has it, other than some known mentally ill liars who probably made it up.

also hard to believe when I had it (who knows if i actually did since they openly say the tests are worthless and do nothing) and it was no better or worse than when i had the flu a few years ago.

don't just call me a shill and go on posting anime pics like a tranny. i'm seriously open to reasoning. but right now i don't have any reason to be afraid.

There are many unanswered questions pertaining to what effect /ourgirl/ has on

the reproductive system of both men and women. Autopsies of those touched by /ourgirl/ have shown scar tissue throughout the body. This would include ovaries, uterus and testes. Just because people are not dropping like flies doesn't mean there is no threat. Think beyond the immediate. Look at what evidence you can find.

As you said, it can leave scars throughout the body. Not specifically on the reproductive organs mind you. I've read about damage to the heart, kidneys, lungs, but only in some cases. So overall, i don't see infertility as a side effect of the rona. It might happen to some people, but i haven't seen evidence yet to suggest it could sterilise a significant part of the population.

Even in the limited social interaction afforded in less strict locales masking itself cripples interaction by eliminating the most expressive facial elements of communication. Yet, while restrictions on social interaction may be a large

contributor to suicidal ideation and consummation other factors exacerbate the problem. There is in many locales the sense that the isolation has no end in sight making the disruption of education continual thus leaving prospects for future work life somewhat in limbo. This makes the natural progression toward emancipation into adulthood unsettled and threatening, even dating and marriage is put on hold for millions. Meanwhile the media contributes heavily to the atmosphere of doom by reporting positive cases in such a way that even acquiring the disease is in itself a sentence of death.

I've seen similar stuff along the way, so its not surprising.

However, I didnt see anything about COVID19 definitely not existing.

Merging thread:

So while the United states is on fire tonight there's been a slow bass boosting throughout the former states of the Commonwealth regarding two potential incoming events in the Not So Great White North of Canada regarding two major events, 1) Ontario going back to a lock down to stage 2 and 2) The spaztastic reveal of a master plan to set up potentially useless Corona Coff based Concentration Camps not unlike the (ineffective ones) in China. Now this was posted previously on here but there was a lack of context not only on the original source of the leak, but whether or not this leak was real to begin with.

So without further ado here we go people. But this time we've got real sauce on WTF is kinda going down (Including archives)

1) The original leak of the LPC Plan for the Corona Coff Camps came from the GodLikeProductions page : <https://www.godlikeproductions.com/forum1/message4551385/pg1> , threads a god damn mess and if any anon can find any further nuggets you're welcome to note them here.

2) From God Like Productions it got leaked to Gab, <https://gab.com/RemiBoudreau/posts/105035234228420328> / and some Qanon forums... where nobody did any further look up

3) Until it got to this forum : <https://thecanadianreport.ca/is-this-leaked-memo-really-trudeaus-covid-plan-for-2021-you-decide/> / <https://archive.ph/Bm0xw>

4) Where from there, there were two big intel dumps given by some anonymous commentators : Item A) A massive requisition for Tear Gas going out to Saskatchewan : <https://buyandsell.gc.ca/procurement-data/tender-notice/PW-20-00926463> / <https://archive.ph/9uUiw> B) (((Isolation Camps))) requisition : <https://buyandsell.gc.ca/procurement-data/tender-notice/PW-ZL-105-38463> / <https://archive.ph/17dMN> for the camps there's an estimated \$37 million earmarked for it. But so far no takers.

5) But then came the big drop around October 9th. when Hiller an MPP from Queen's Park in Ontario asked for details regarding the requisition for these potential isolation camps and it turns out that they cut him off : <https://www.youtube.com/watch?feature=youtu.be&v=PSm2ZF63KoE>

6) Last update on this has come from Cairns News in Australia mentioning that there's Eternal Anglo Plans to implement these types of Camps across all former Commonwealth countries : <https://archive.ph/BROGv>

Now there's also a big rumor from the original Gab thread as to who the leaker is, sadly it's another boomer with a computer that can't help but come off as a Spaz:

@CanewDew "yes imo the liberal mla from Crnbk east Kootenay riding. Search yourself as i cant..too close and don't want a trail.for I am radared and my link to him must kept closed. Good luck and follow thru..too important" - Apparently this leak may have actually come from MLA Tom Shypitka out from BC if the rumor be true.

So right now we've got something smoking and that ain't the Canadian Goose you ate for game that night.

But we're left with a couple of other mysteries: 1) We've surmised the leaker for this being out in BC, but why was there a federal meeting but not a provincial collective one? 2) Why are there no names given for the heads that were in this very same meeting regarding the internment camps? Who in the Liberal Party was running this meeting out ? 3) Is this entire plan secretly hinging up on a Biden win for the US election? Those are some starting mysteries to consider.

>while experts warned in the spring not to count on a seasonal suppression of the disease in the summertime, their own data often suggested that the disease was in fact probably suppressed somewhat in those months, thanks in part to temperature and humidity effects that are now running in the opposite direction. That many of them are now warning we are underestimating coronavirus seasonality is not among the most conspicuous public-health reversals of the pandemic --- reversals on mask wearing, asymptomatic spread, fomite and aerosol transmission, and the safety of the outdoors were all probably more consequential. But having it both ways on seasonality – emphasizing its trivial impact during the summer

and its significant impact in the fall and winter in order to produce heightened vigilance in both instances – may well have muddled the public's understanding of the disease. And possibly, in so doing, made the winter pandemic potentially worse.

basically we're living through the last days when humanity can cross borders without the vaccine. Then they'll wipe the northern hemisphere with something in the late 2020s I don't know what, when or how. But 2030 is oven time for all who stay. Then they'll come back.

The article mentions Brazil because that's where they went. Most human activity will be in the southern hemisphere after 2030. I won't be trying to prove anything or defend what I'm saying, but that's all I can do. I'm staying north and I'll die. They'll be happy.

Merging thread:

Leaf state media: People worried about "covid isolation centres" are "hardcore conspiracy theorists"

Some time ago, the Government of Canada put out a listing on buyandsell.gc.ca looking for contractors to build "covid-19 isolation centres" around the country that would supposedly serve a "multitude" of purposes: (PDFs available)

<https://buyandsell.gc.ca/procurement-data/tender-notice/PW-ZL-105-38463>

Naturally, people didn't take well to this and rightfully worried about the implications so our state media, the CBC saw fit write off their concerns as "hard-core conspiracy theories". In fact, they go as far as to say so multiple times:

<https://www.cbc.ca/news/canada/calgary/ucp-mla-covid-concentration-camps-disinformation-1.5773291>

>"The other thing that is fascinating about this story, is this is a pretty hardcore conspiracy theory. ' said Timothy Caulfield, a Canada Research Chair in health law and policy at the University of Alberta. "I think a certain conspiracy theory has developed around this," Kenney said on the radio show. "I think that some of this is turning into, unfortunately, a conspiracy theory. Misinformation, disinformation, does not help public health officials," she said. '

How do we get leafs to stop allowing the state and the media to gaslight them so blatantly?

My local hospital is overrun with coronavirus patients AGAIN

Flooded by patients from rural communities that can no longer take care of their own thanks to the orange kike's line of "don't wear the mask for the economy, for the election"

You've already made up your mind about this so i don't see what the point of even having this conversation is. If you don't believe him about his hospital being flooded with corona patients that's your choice. It's hardly the only hospital in that situation though and its not getting any better any time soon. And that regardless of your opinion.

Researchers Warn Some Covid-19 Vaccines Could Increase Risk Of HIV Infection

<https://www.forbes.com/sites/roberthart/2020/10/20/researchers-warn-some-covid-19-vaccines-could-increase-risk-of-hiv-infection/>

<https://archive.is/wWVhd>

>Some of the Covid-19 vaccines currently in development could increase the risk of acquiring HIV, warned a group of researchers in the The Lancet medical journal Monday, potentially leading to an increase in infections as vaccines are rolled out to vulnerable populations around the world. The researchers warn of a "cautionary tale" from efforts to create an HIV vaccine over a decade ago, where a promising vaccine candidate actually increased the risk of some men catching the virus. The vaccine made use of a modified virus --- called adenovirus 5

(Ad5) – as a vector to transport some of HIV's genetic material into the body.

>Exactly how the vaccine increased the risks of HIV transmission is unknown, but a conference convened by the National Institutes of Health recommended against further use of Ad5 as a vector in HIV vaccines (Dr. Anthony Fauci was lead author of the paper outlining this position.) Ad5 is used as a vector in some Covid-19 vaccines --- Science identifies four such candidates that are currently undergoing clinical trials in various countries around the world, including the U.S., with two in large scale phase 3 trials ongoing in Russia and Pakistan. The researchers stressed the need to understand the role Ad5 might play in increasing the risks of HIV in vulnerable populations before developing and deploying vaccines using the vector, adding that informed consent documents should reflect the "considerable literature" on the risk of HIV acquisition with Ad5 vectors.

My comment: It should be noted that the original thread's OP censored the word "fags." Hey, original OP? You can say the f-word here.

Between 290 000 to 650 000 according to the WHO. Even with the highest value, that still only a bit over half and it hasn't been a year yet. And this death toll also means believing the chinks, which is dubious at best.

>But the board voted 4-3 to end the mask mandate. Board members overseeing the operations of Idaho's public health districts are appointed by county commissioners and not required to have any medical experience.

>Board member Walt Kirby said he was giving up on the idea of controlling the spread of coronavirus.

>"I personally do not care whether anybody wears a mask or not. If they want to be dumb enough to walk around and expose themselves and others, that's fine with me," Kirby said. "Nobody's wearing the damned mask anyway. ... I'm sitting back and watching them catch it and die. Hopefully I'll live through it."

>Another member, Allen Banks, denied COVID-19 exists.

>"Something's making these people sick, and I'm pretty sure that it's not coronavirus, so the question that you should be asking is, 'What's making them sick?'" he told the medical professionals who testified.

>Similar scenes - with doctors and nurses asking officials for help, only to be met with reluctance or even open skepticism - have played out across the conservative state. Idaho is sixth in the nation for new coronavirus cases per capita, with the average number of confirmed cases increasing by more than 55% every day over the past two weeks.

>During hospital admission, 54/58 (93%) patients had abnormal chest X-ray or computed tomography (CT). At ~2-3 months, persistent parenchymal abnormalities on lung MRI were present in 32/53 (60%) patients (Table 2, appendix Figure 2, p28). Thirty-six (64%) experienced symptoms of significant breathlessness (MRC

dyspnoea score ≥ 2) and 30/55 (55%) complained of fatigue

>Cognitive performance in the visuospatial/executive domain was impaired among patients compared to controls (MoCA visuospatial score ≤ 4 in 40% patients versus 16% in controls, $p=0.01$). Among patients, 28% (16/58) had a total MoCA score that was abnormal according to the established cut-off of <26 compared to 17% (5/30) of controls.

>Acute liver injury (appendix, p2) was seen in 31% (18/58) of patients. At 2-3 months, 11% had persistent liver injury (non-specific pattern) on blood tests (appendix Table 1, p9). On MRI, another 10% (5/52) of patients had signs of liver injury evidenced by increased iron-corrected liver

>Haematological abnormalities including lymphocytopenia and thrombocytopenia were seen in 47% (27/58) and 2% (1/58) of patients at admission respectively and an elevated CRP ($>10\text{mg/L}$) was seen in 98% (57/58). At follow-up, all abnormalities in lymphocyte and platelet count returned to normal. However, patients tended to have higher a CRP ($p=0.058$)

>Six (10%) patients developed acute kidney injury (Table 1), of whom two required renal replacement therapy during admission. At 2-3 months, 3% (2/58) of patients had residual renal impairment which was not present prior to COVID-19.

>At 2-3 months, a higher proportion of COVID-19 patients reported moderate to severe symptoms of depression (i.e., PHQ-9 score ≥ 6 , 39% versus 17%, $p=0.036$) and anxiety (i.e., GAD-7 score ≥ 6 , 35% versus 10%, $p=0.012$) compared to controls (Table 4, Figure 2). Patients reported a significantly reduced quality of life in all domains (Table 4, Figure 2). Importantly, impairment in both physical and emotional health imposed significant role limitations among COVID-19 survivors.

>Severity of illness during admission (WHO ordinal scale) (appendix Table 4, p21, Table 5, p23) correlated moderately with inflammatory markers at follow-up, signs of persistent inflammation/injury in the lungs, liver, kidneys, and VE/VC02 on CPET. Notably, even in patients who were not critically ill (i.e., those who were not intubated or ventilated or receiving vasopressor/ionotropic support or renal replacement therapy), MRI evidence of lung, cardiac, kidney and brain abnormalities could be seen (appendix Table 6, p24).

Although the severity of illness during admission did not predict the risk of depression, the extent of persistent symptoms did.

SCAMDEMIC AND THE JEW WORLD ORDER

The elite are planning on releasing a real bioweapon virus in 2021 which will be called COVID21. This will have real

visible consequences and will be used to silence the resistance to the (((covid))) narrative. Bill gates seems to have predicted

this in interviews as if he knows the future: "So we will have to prepare for the next one. That will get attention this time."

-- bill gates (paraphrased slightly)

Read through this link <https://thecanadianreport.ca/is-this-leaked-memo-really-trudeaus-covid-plan-for-2021-you-decide/>

-- Phase in secondary lock down restrictions on a rolling basis, starting with major metropolitan areas first and expanding outward. Expected by November 2020.

-- Rush the acquisition of (or construction of) isolation facilities across every province and territory. Expected by December 2020.

-- Daily new cases of COVID-19 will surge beyond capacity of testing, including increases in COVID related deaths following the same growth curves. Expected by end of November 2020.

-- Complete and total secondary lock down (much stricter than the first and second rolling phase restrictions). Expected by end of December 2020 - early January 2021

-- Reform and expansion of the unemployment program to be transitioned into the universal basic income program. Expected by Q1 2021.

-- Projected COVID-19 mutation and/or co-infection with secondary virus (referred to as COVID-21) leading to a third wave with much higher mortality rate and higher rate of infection. Expected by February 2021.

-- Daily new cases of COVID-21 hospitalizations and COVID-19 and COVID-21 related deaths will exceed medical care facilities capacity. Expected Q1 - Q2 2021.

-- Enhanced lock down restrictions (referred to as Third Lock Down) will be implemented. Full travel restrictions will be imposed (including inter-province and inter-city). Expected Q2 2021.

-- Transitioning of individuals into the universal basic income program. Expected mid Q2 2021.

-- Projected supply chain break downs, inventory shortages, large economic instability. Expected late Q2 2021.

-- Deployment of military personnel into major metropolitan areas as well as all major roadways to establish travel checkpoints. Restrict travel and movement. Provide logistical support to the area. Expected by Q3 2021.

As you can see, they're planning health passports for those who get the (((vaccine))) while those who don't won't be able

to do anything. Concentration camps for the none vaccinated and none compliant. A cashless society where

they can suspend you ability to withdraw e-money if you brake the terms of service for society or say something politically

incorrect anywhere on the internet. And being as the corona virus is only the first of the four horsemen, they're probably planning

a great war and famine before death (depopulation) starts.

Watch this video: <https://www.youtube.com/watch?v=lKCTkJbT4>

We need a mass awakening. A full scale mass red pilling meme war on every front right now. If you read this, spam this info

all over 4chan's pol where they have the numbers and encourage them to spam it all over the internet and to tell everyone they

know in real life. FULL SCALE MEME WAR RIGHT NOW. This is out last-ditch

attempt.

We need everyone to know about their COVID21 mutation plan, so that when they implement it everyone can see how accurate our predictions and research is. Make that a priority. This will help normies wake up and sabotage their plans for the future.

We should send this information to all the youtube e-celebs.

Make multiple accounts to make it look like a lot of people want them to talk about it. Send it to anyone you think will talk about it whether they're right wing, center, or just a faggy commentary channel. We need to spread this information far and wide. Go to 4chan and encourage these ideas there too.

Tell them to do the same. We need their numbers after all.

How do make a living with the corona shit restrictions in place? This is an unconventional [post], but I figured this is the correct place to post this to, since it's about the most important class in the movement, the working classes current situation. We are getting screwed the hardest, maybe with the exception of tourism/entertainment fags.

I worked as a carpenter for years before the government started the corona chimpout. I got some jobs in the summer for a few months, but they closed down all the construction sites where I worked at. Last year my phone was constantly ringing about job opportunities, now I call companies, but they have nothing at all.

I had some money saved up, but the car payments/mortgage/3 kids and other costs of living is eating it up pretty fast.

How did those among you that are fellow tradesman adapted to this

You forget to point out the most obvious point indicating that it is not a scam. Why go to all the trouble of creating a scam virus which would require the cooperation of medicos all around the world to remain silent only to release an actual virus to show those that think that it is a scandemic that they are wrong when it would be easier and more effective to just release a virus to begin with thus eliminating any possibility that people could realize it as a scam?

I'm not saying this is the case, but the obvious benefit of taking that route would be to manufacture distrust and complacency. The number of hoaxniggers has only grown over the months as far as I can tell, and many people who know the virus is real are tired of wearing masks and altering their lifestyle. Robert F. Kennedy Jr: Sends a Powerful Message for Freedom and Hope to the World - 10/24/2020

There are many gatherings around the world. Activists from these countries unite to speak with one voice: Germany, Argentina, Bolivia, Peru, Uruguay, Italy, Poland, Belgium, Netherlands, United Kingdom, Ireland, Sweden, Denmark, France and Austria.

Citizens of all countries are paying a huge price for the epidemic. They not only lost their loved ones, but also their freedoms, their livelihoods, their joy. Children and young people are also suffering from this crisis. Without their friends and social activities, mental health problems among our young people are reaching an unprecedented level. All over the world, people are asking to be spared from the devastating consequences of the epidemic.

You have it backwards. He went from having some understanding of jewry (like when he wrote that famous article), to selling out completely to the "Focus Group", helping crush nationalism, and establishing our current jewish order.

Maybe he really didn't want England to be the multicultural shithole it is today, but he definitely wanted whatever it was to be totally under the yoke of usury.

There used to be a great, concise clip from a David Irving talk about Churchill and The Focus Group on jewtube, but of course that's gone now.

Merging thread:

President Trump never downplayed the epidemic.

The current government declared a state of public hygiene emergency and forbade the entries of foreigners from China within 10 days of the moment of discovery of the first patient in US or the moment when China government showed the infectivity of the virus. The current government declared a state of emergency and forbade the entries of foreigners from Europe within 15 days of the moment of the beginning of full-blown epidemic in Europe. Beginning with that public hygiene emergency, Centers for Disease Control, a department of government, published the number of patients discovered everyday, and appealed to populace to keep physical distance.

At the same time, Democratic Party officials, including Pelosi, Biden and Blasio etc., accused President Trump of being exclusionist, betraying allies and creating fear. They called on people to have dinner parties to protest President Trump.

The current government has not hide epidemic dynamic situation or the research progress basing on science about epidemic. The target of the government is not downplaying the immediate danger of the epidemic but suppressing the economic consequence of the epidemic. Our manner of suppressing the economic consequence of the epidemic is not hiding but expressing the expect that epidemic would subside and even nearly disappear in the not distant future. The purpose of this is inhibiting decruitment storm and stagnancy chain reaction, and protecting number of jobs in US.

Expressing the optimistic expect is not concealing the fact having appeared.

The current government has not denied the existence of the epidemic or the immediate danger of the epidemic. But current President delivered the confidence that the epidemic would not continue for too long time, and would not destroy the our country or the economic prospect. Because, in the aspect of economy, confidences or despairs usually tend to become self-fulfilling prophecies.

Later, depending on salvation act, current government provide subsidies and loans for enterprises to supply salaries and to keep employments, in order to promote economy and jobs recovering after subsiding of epidemic. All the while, besides public hygiene policies, economic policies dealing with the epidemic is focusing employments and salaries rather than corporate profit, because according to the act, enterprise should repay the salvation loans partly or totally unless the part of salvation loans is used for supplying salaries of employees. The purpose of us is keeping employments as bases for economic resurgence, via reducing the transaction costs or the time needed by economic resurgence.

Honest words are not hyperboles. Although president's description was not like those panicky comments, such as "The End of the World" and "more lethal than Ebola", etc. But President never concealed the infectivity, severity and lethality of this kind of coronavirus. President's description - "Big flu", "second Spanish flu" are appropriate descriptions of this coronavirus, because the effect and characteristics of this coronavirus resemble the ones of 1918 Spanish flu virus, although the lethality of this coronavirus is less than the one of 1918 Spanish flu.

President had a swift and resolute response to this coronavirus, and never stopped any endeavour of civil-society and government. The opinions that blame the President for pandemic, are unfair, emotional and unreasonable. President never erred and lied, but he is not superman. The performances of the other nations whose culture resemble the culture of America, such as Canada, British, France, Italy, Spain and Germany, were equally sad. Better performances belonged to Japan, Taiwan and Vietnam, but their culture are so different to ours.

As someone I know pointed out; when the second or third lockdown is done, there won't be anymore 'stores' not mom and pop, not big box. There will only be UBI supply depots that require a vaccine and communist forfeiture of your property to partake in. Looks like things are going to get interesting in the USA. I hope people start killing foreigners that our government imported so there will be less competition for goods.

We'll be taking Pajeet's record soon. Which is wild considering they have a population 4.2 times larger than the US. Without doing the math I think France still has both beat per capita, their daily case record is somewhere over 50k, and they have a population 5 times smaller than the US.

lol, I've been saying this for almost ten years now. As Bezmenov said, the brainwashing and demoralization are self-reinforcing and have been for decades. I've been aging faster solely because I keep being proven right. It's great; I hate every waking moment of existence and there's no respite from the pain and loneliness. There's also no reason to improve yourself or build anything for the future, because there is no future and the white species will be completely exterminated, mostly by themselves, before 2100. Meanwhile they distract themselves with meaningless bullshit like which jewish puppet whose cock they get to suck.

At this point it is clear to every non-npc, non-normalfag that this virus is an inflated scheme, possibly to make billionaires a few more billions and ruin the middle class, but if the hoax ends in 2020-2021 then the middle class will be able to bounce back pretty quickly.

Also, do they want to make this the next holocaust so noone can ever question the events afterwards? The consequences would be severe for everyone involved if the truth got out.

Merging thread:

Operation Warp Speed's goal is to produce and deliver 300 million doses of safe and effective vaccines with the initial doses available by January 2021, as part of a broader strategy to accelerate the development, manufacturing, and distribution of COVID-19 vaccines, therapeutics, and diagnostics (collectively known as countermeasures).

What countermeasures does /pol/ have to subvert this tyranny?

>The spike protein is also continuing to accumulate additional mutations of unknown significance. The Houston Methodist-UT Austin team also showed in lab experiments that at least one such mutation allows spike to evade a neutralizing antibody that humans naturally produce to fight SARS-CoV-2 infections. This may allow that variant of the virus to more easily slip past our immune systems. Although it is not clear yet whether that translates into it also being more easily transmitted between individuals.

Anyone would think that the virus was manufactured to mutate quickly and trick the immune system like HIV by having, say, HIV inserts in its genome.

Be careful anon. A virus that allows in Cryptococcus allows in this:

<https://royalsocietypublishing.org/doi/10.1098/rsfs.2018.0029>

We propose that fungi Basidiomycetes can be used as computing devices: information is represented by spikes of electrical activity, a computation is implemented in a mycelium network and an interface is realized via fruit bodies. In a series of scoping experiments, we demonstrate that electrical activity recorded on fruits might act as a reliable indicator of the fungi's response to thermal and chemical stimulation.

Cryptococcus neoformans is a basidiomycete fungus that is found worldwide and causes disease in humans and animal species. The fungus grows asexually as a budding yeast.

C. gattii infections are rare. Worldwide, many of the reported cases of C. gattii infections have occurred in North America, Australia, and South America. Most of the reported C. gattii cases in the United States are from Oregon, Washington, and California.

Its already being used as a weapon.

Since the rollout of rapid coronavirus testing, the drop in recorded flu cases means that the previous statistics of flu, were in fact without a rapid influenza test, therefore only "presumptive flu", and that while this strain of coronavirus going around may be scary in it's genetics, may be virtually no different than any normal coronavirus. And going along that line, the big pharma lobby, having been outed as pushing a flu vaccine on state local and federal governments, was actually pushing an unnecessary shot. Moreover, the unnecessary flu shot has been causing side effects scale that far outweighed the true statistical impact of flu, accounting for what we know now. Therefore the push for masks and lockdowns is an attempt to re-assert authority on behalf of big pharma and governments, when their own statistics have now undeniably proven their authority misplaced. Now they double down. While a sudden rushing to cure and vaccinate against the common cold virus coronavirus seems admirable enough, it's urgency is primarily due to a fear of liability for decades of malpractice that officials are hoping can be swept under the rug. Maybe the new coronavirus can make competent hybrids with HIV retrovirus, and that is the alternative reason for urgency, but without addressing the statistical discovery of the virtual extinction of true influenza, the issue is muddled with an obvious pair of motives for corruption -- coverup of malpractice and a crisis of credibility.

Merging thread:

Isolation & Elimination of Dissidents under the guise of "COVID-19"

I don't see a thread discussing anything related to this here. I'll try to keep this as concise as possible.

Back before "COVID-19" happened there was a leaked memo from a so called "insider" kike named "David Goldstein" that discussed two operations they would use to silence "anti-semitism" and stop the great awakening; codenamed Operation Zephr and Operation Pogo. Apparently Israel had been increasingly growing concerned of the speed in which people were becoming redpilled/woken up via the internet and devised a plan to get it under control.

The first discusses how they would use targeted viral attacks, or possibly the pretext of viral outbreak/pandemic to isolate anyone deemed to be part of the 15% (In the U.S) and growing number of people who know the truth and no longer buy the mainstream narrative. I'm sure many of you may have noticed, but under "COVID" restrictions, governments have been over extending their power to keep large groups of people from coming together; families, friends, any "like minded" individuals who would pose a threat in a group can no longer legally gather. In some countries they have imposed restrictions of the number of people allowed inside one's own property, enforceable by ZOG bots. This is happening in different stages in different countries, with the U.S. still being the most

liberal from what I gather (probably due to the number of gun owners/ potential resistance) and will most likely be the last to reach the final stage.

There was a leaked memo from Canada that outlined a possible sequence of isolation:

>Phase in secondary lock down restrictions on a rolling basis, starting with major metropolitan areas first and expanding outward. Expected by November 2020.

>Rush the acquisition of (or construction of) isolation facilities across every province and territory. Expected by December 2020.

>Daily new cases of COVID-19 will surge beyond capacity of testing, including increases in COVID related deaths following the same growth curves. Expected by end of November 2020.

>Complete and total secondary lock down (much stricter than the first and second rolling phase restrictions). Expected by end of December 2020 -- early January 2021

>Reform and expansion of the unemployment program to be transitioned into the universal basic income program (Inline with the UN Agenda 2030 and "Fourth Industrial Revolution"). Expected by Q1 2021.

>Projected COVID-19 mutation and/or co-infection with secondary virus (referred to as COVID-21) leading to a third wave with much higher mortality rate and higher rate of infection. Expected by February 2021.

>Daily new cases of COVID-21 hospitalizations and COVID-19 and COVID-21 related deaths will exceed medical care facilities capacity. Expected Q1 -- Q2 2021.

>Enhanced lock down restrictions (referred to as Third Lock Down) will be implemented. Full travel restrictions will be imposed (including inter-province and inter-city). Expected Q2 2021. >Transitioning of individuals into the universal basic income program. Expected mid Q2 2021. >Projected supply chain break downs, inventory shortages, large economic instability. Expected late Q2 2021.

>Deployment of military personnel into major metropolitan areas as well as all major roadways to establish travel checkpoints. Restrict travel and movement. Provide logistical support to the area. Expected by Q3 2021.

The last point is the most concerning; using "COVID" as an excuse to openly deploy ZOG bots onto the streets, establish military checkpoints and restrict freedom of movement. This will be the biggest blow and will prevent any like-minded people or resistance fighters from getting together. It will also allow them to easily hunt down and eliminate individuals known to them as being targets all under the guise of a "pandemic". To those of you who know history, this is a modern twist on the Bolshevik door-to-door murder that happened in Russia early 20th century. This cannot be allowed to happen.

The second, Operation Pogo, solely is about Tracking, Tagging, and IDing any truth teller, regardless of "anti-semitism" convictions, so they can be monitored and disposed of based on threat level. The push for this "vaccine", as many of you probably already suspect, most likely has some kind of tracking device embedded in it (in addition to sterilization agents), perhaps an RFID chip.

In conclusion, and the main point of me posting this, is to alert anyone who doesn't already know what is going on. Anyone who has any inclination of fighting this tyranny better get their shit into gear ASAP. Get fit, get your kit together, hide any evidence what will be used against you if you are captured. Alert anyone who will listen (especially those who matter to you), stock up on as much food as you can afford, get your debts in order and have a

plan for the checkpoints and property invasions. Godspeed gentlemen. It has been a pleasure being part of this community and realizing how many of us are out there. Let us survive this jewish terrorism, reclaim and rebuild our nations for the people.

to all the other leafs out there:

get angry. get mad. seethe. Get every last one of your friends, preferably men. The poorer you are the better. Stock up on any sort of weapon. It doesn't have to be a rifle. It could literally be a garbage can made into a cannon that fires rocks. When the military comes into your city, do not greet them with peace. Greet them with pure, seething rage and horrifying violence. Do not fear death, make peace with your life. When they come, do your best to at the very least kill one of them. Crucify them on the side of a road, no matter if they are live or dead. Show the enemy that we are dangerous. We shall show them suffering far beyond what they'd ever do. Show the enemy that this is our land, they have entered our home, they want to shed our blood upon our soil, show them disrespect of that caliber leads to their eternal damnation. Flay their skin, feast upon their flesh, and gorge yourself on the sweet nectar that is their blood. Strike fear into them. Strike as champions at their hearts. It doesn't matter if you're white or black, it doesn't matter if you're short or tall, young or old, fat or skinny, every set of hands that can drive it's thumbs into their eyes is worth a million pounds of gold. Wear their skin as your garment, use their bones to club them, use their organs as your subsistence, paint the walls with their blood, paint a linen cloth with a cross in their blood. They shall know that this is Vietnam, it's a war that they will never win. Be he who takes them across the river styx. May Mars bless you in the coming months.

If Trump was deathly ill the MSM would be cumming all over themselves with excitement. The idea that Trump could die in the near future would be irresistible. Holt shit!! It just occurred to me a few minutes ago that this whole "COVID-19" thing could also be a genetically targeted virus! Meaning it could attack only those with their specific DNA programmed into it. Do guys remember the whole 23&Me "find out your ancestry" bullshit going on around 2016? They were deliberately preying on naive boomers and Whites who got cucked by gatekeepers into literally giving the kikes their DNA! Collecting the DNA possible dissidents for tracking, logging, and programming into a targeted virus! Maybe that is what the whole Project Zyphr thing is about!

I was just reading that Pfizers vax will have to be stored at -70. Logistical nightmare?

Meanwhile Russia's vax is 92% effective.

Israel has dibs on both vaccines. They asked the US for help to get Pfizers new vax and they expect shipments to start in January, before Americans.

Russia's vax doesn't even get mentioned in the USA.

Of fucking course they are. Look up any (((personality disorder))), and the recommended treatment is an SSRI. SSRI's can seemingly cure everything from your mild case of upset to cancer and buttfuckyou syndrome. I'm pretty sure if your sink is clogged, throwing a few of those shitpills down the drain will solve that, too.

👤 Anonymous SAGE! 11/16/20 (Mon) 12:40:16 a74a32 No.182010 >>182322

Main Key Points:

We've been in lockdown since March. Only 136 total deaths in Victoria (total pop: 6.359 million).

Police can enter your home without a warrant.

Can only exercise outside for 1hr per day, max.

United Nations is against "isolation for 22-23hrs a day, for longer than 15 days". Current restrictions are more than this.

Only 1 person may leave the house per household per day.

Friends and family cannot visit each other.

8pm-5am curfew.

Daniel Andrews (Victorian Premier)'s advisers were known CCP members spreading disinformation about COVID (sources below).

\$1652 fine if outside without a "valid" reason -- we must show a permit to go to work, with police/military stopping people and questioning them as to why they're outside.

\$4957 fine if breaching quarantine; \$20,000 for a second offence.

\$200 fine for no mask (masks are mandatory everywhere, even outside). People have been arrested for not wearing one.

Masks will likely be mandatory "for many years to come".

Cannot go more than 5km from your home for any reason except work.

We can't even leave the state and live somewhere else -- borders are locked, with police checkpoints.

Over 3000 people were placed in house arrest for more than 2 weeks.

Daniel Andrews has literally said his goal is to do "damage" to the economy (source below).

Welfare state: It's predicted nearly 50% of Victoria's private sector workers will be on some form of government welfare.

Daniel Andrews grossly mishandled a "hotel quarantine" by hiring cheap security contractors who had sex with already-infected people.

Mandatory vaccines look to be on the agenda (source below).

Cannot protest -- many organisers have been arrested for just planning protests that hadn't even gone ahead yet.

Neighbours have turned on each other, with hotlines where people can "dob each other in".

250,000 people lost their jobs in one single week (Aug 4th).

Schools all closed, despite a huge study showing COVID does not transmit amongst schoolchildren. Most childcare centres closed.

The ADF (military) have been deployed and are door-knocking and interrogating people on the street.

Weddings are illegal, gatherings of more than 2 people are illegal, protests are illegal.

Over \$5.2 million in fines given out in Australia so far (Aug 4th).

Job losses expected between 250,000-400,000 people in Victoria (population 6.359 million).

Professor Ian Hickie predicts a 25% increase in suicides in Australia due to lockdowns for the next 5 years -- an additional 750 suicides per year.

Victoria has recorded a 33 per cent rise in children presenting to hospital with self-harm injuries over the past six weeks.

Critically-ill (dying) hospital patients are being denied visitation from their families.

Police are using drones to spy on people and catch them breaking curfew.

Clearly, the test is part of the conditioning process. First you need a mask to work, then a test, then a vaccine.

I can only believe Bill Gates is using a weak strain as blackmail against all countries to force them to conform to the globohomo agenda, whatever they like it or not. Failure or refusal to comply will end up with an entire country ravaged by an actually deadly strain, resulting in countless bodies dropping dead, like how it (supposedly) happened on Iran early this year.

<https://archive.ph/ru4E0>

You can jewgle translate the rest if you'd like, but this is the most important part:

>Now he states a new warning: "In the future, an epidemic even worse than this one (corona-chan, obviously), may surge". In an interview by video-conference with Trevor Noah, Daily Show's presenter, Bill Gates highlights that, despise everything, the world will be better prevented and ready for a new epidemic.

CEO of biotech firm which manufactures COVID tests calls the virus "The greatest hoax ever perpetuated on an unsuspecting public."

<https://archive.is/wip/vxEZi>

Top pathologist Dr. Roger Hodkinson told government officials in Alberta during a zoom conference call that the current coronavirus crisis is "the greatest hoax ever perpetrated on an unsuspecting public." Hodkinson's comments were made during a discussion involving the Community and Public Services Committee and the clip was subsequently uploaded to YouTube.

Noting that he was also an expert in virology, Hodkinson pointed out that his role as CEO of a biotech company that manufactures COVID tests means, "I might know a little bit about all this. There is utterly unfounded public hysteria driven by the media and politicians, it's outrageous, this is the greatest hoax ever perpetrated on an unsuspecting public," said Hodkinson.

The doctor said that nothing could be done to stop the spread of the virus besides protecting older more vulnerable people and that the whole situation represented "politics playing medicine, and that's a very dangerous game." Hodkinson remarked that "social distancing is useless because COVID is spread by aerosols which travel 30 meters or so before landing," as he called for society to be re-opened immediately to prevent the debilitating damage being caused by lockdowns. Hodkinson also slammed mandatory mask mandates as completely pointless. "Masks are utterly useless. There is no evidence base for their effectiveness whatsoever," he said.

"Paper masks and fabric masks are simply virtue signalling. They're not even worn effectively most of the time. It's utterly ridiculous. Seeing these unfortunate, uneducated people -- I'm not saying that in a pejorative sense -- seeing these people walking around like lemmings obeying without any knowledge base to put the mask on their face." The doctor also slammed the unreliability of PCR tests, noting that "positive test results do not, underlined in neon, mean a clinical infection," and that all testing should stop because the false numbers are "driving public hysteria."

Hodkinson said that the risk of death in the province of Alberta for people under the age of 65 was "one in three hundred thousand," and that it was simply "outrageous" to shut down society for what the doctor said "was just another bad flu. I'm absolutely outraged that this has reached this level, it should all stop tomorrow," concluded Dr. Hodkinson. Hodkinson's credentials are beyond question, with the MedMalDoctors website affirming his credibility.

"He received his general medical degrees from Cambridge University in the UK (M.A., M.B., B. Chir.) where he was a scholar at Corpus Christi College. Following a residency at the University of British Columbia he became a Royal College certified general pathologist (FRCPC) and also a Fellow of the College of American Pathologists (FCAP). He is in good Standing with the College of Physicians and Surgeons of Alberta, and has been recognized by the Court of Queen's Bench in Alberta as an expert in pathology."

The DNA tests are a probable way to catch "criminals" that havent taken a DNA test, because someone in their family did. The boomers fucked over our privacy to kill enemies and cover our probed asses. Theres no way to ensure a Dexter-level operation 100% when killing or body disposal must be done for a good cause. Soldiers get to kill because the government tells them and theyre not criminals for it, but when citizens with self-governance must kill, then LEA has an extra fine advantage of identification with this:

He's literally the only one who has ever had access to the Q-LARP tripcode and password on this site or the previous site. Q-LARP did not create a public encryption key. ANYONE can pretend to be it, anywhere. It uses DES for its tripcode, which literally every government actively warns against using because it's not secure and hasn't been for 30 years. Q-LARP did not post any secondary proof of its existence, such as a bitcoin address. Its tripcode totally controlled by the admins of this site and the password can be changed or given away at any time, for any reason.

Do note that the "original" Q-LARP also said (on 8chan) that NO ONE posting on any site other than 8chan is "legitimate." And 8chan is gone forever.

The funniest shit is that Q-LARP is so "all powerful" that it couldn't even keep a single website on the Internet. The "greatest American patriot" with the entirety of the military and presidential administration behind him... is only accessible on a broken website through an illegal malware service hosted in a foreign country.

Nigger, the trip had to be changed after the password was revealed to be "matlock". There's no proof that Jim is the only one who had that, and the original posts didn't even have trip.

Most of your post is just stating the obvious, that it's a LARP. But where the actual proof that it was always Jim?

>the trip had to be changed after the password was revealed to be "matlock"

The greatest American patriot with the entirety of the military and presidential administration behind him used an ASCII password under DES encryption. Imagine. Just imagine.

>There's no proof that Jim is the only one who had that

He ran the site. He had access to plaintext files which included the trip and password of any namefag in existence. He could sell them to anyone he wanted.

>and the original posts didn't even have trip.

The greatest American patriot with the entirety of the military and presidential administration behind him had no name, no identifying marks, and no way for anyone to tell that it was legitimate across even single IPs (or entire website shutdowns, remember). Imagine.

>But where the actual proof that it was always Jim?

Occam's Razor. No one else had access or motive.

Jim doesn't run cuckchan, and there's nothing at all linking him to the first set of posts.

All you have is an assumption, yet you're calling it "proven".

I'm not talking about cuckchan. I'm talking about the 8chan/8kun transition, where Q-LARP gave absolutely no external third party proof of its existence, so no one could ever possibly know that it was the same individual on the new site (entirely new capcode, etc.) unless they were the owner of the site.

>yet you're calling it proven

Where? That's someone else. I'm just substantiating his assertion. It's not possible for Q-LARP to be anyone other than Jim or a personal acquaintance thereof, likely paid.

Can someone who is less of a dumbfag explain something to me? I'm certain like everyone with a brain that this virus is probably the biggest deception in human history, maybe with the exception of the holocaust.

So basically, (((they))) are closing down a large number of restaurants, sports events etc. and they close down schools and offices and encourage working from home. Its obvious that there is wealth transfer going on to billionaires and its fairly obvious to me that they dont close certain businesses, because it would hurt (((special interest groups))), like a fucking 1000 man construction site that is going on next to my apartment.

So my question is not why they don't close these down, but rather what is the official hoaxmaker narrative for not closing down such gatherings, while they close down places like a restaurant that has around 50 guests a day and they have around 20 guests at a time inside at dinner. It cant be justified with the gubbermint caring about peoples employment, since these small businesses that I have seen closed, easily add up to the number of people the construction industry for example employ, I think it easily surpasses it too. They basically do it because restaurants dont hurt billionaire investors, but how the fuck they can justify this shit?

also, take a look at how they are lifting the restrictions in austria this month due to the massive discontent the new, stricter lockdowns caused. you can bet your ass its going to be the same as last time, but probably with less time

between than between the first and second and it will be an even more severe wave 3 lockdown around february.

if the fact that they are willing to do this over a virus that is no more dangerous to the population than the average flue virus, which appears every year, then the fact that they are pushing to mandatorily vaccinate everyone over it should at least raise some alarm bells in the brain of every 100+ iq critically thinking non-npc. some extremely nefarious fuckery is going on and its not going to end well.

its not actual communism tho. its neo-feudalism. they would never shoot themselves in the foot. actual by-the-book communists would kill the rich ruling class and the middle class and redistribute everything. thinking that those were the assholes who started this scheming, actual communism doesnt sound too bad by comparison.

what we will get a bunch of rich cunts, who inexplicably will be able to own things and rule while the average poorfag will have no way of advancing his position in society to even have his own house. In this new society there will be serfs, burocrats ~5% with some independence, more than 95% of the world population, and the 0.01% ruling class. it will be worse than any system ever devised on this earth. Even worse than stalins USSR and I am not exaggerating. You might not starve like in the USSR", but you will have no rights or place in society. Well, there are ~22 million jews alive today, and they will only ever need a decreasing number of slaves as automation is able to replace more physical labor. But that's centuries away, so they'll keep their billions around.

that may be how it works, but as per the communist propaganda doctrine, everyone is supposed to be equal. Which never really actually worked out ever, but thats beside the point in the current discussion of defining the new system

Automation is currently at the point that it could replace 90% of the current jobs given enough investment and no opposition. A rudimentary AI and its 99.9%. There are a few major flaws in the execution of their plan, that might have worked in their brainstorming sessions, but given that they lost their grip on reality, there is no way that they can put some aspects of it into effect. Result will be civilization tearing itself apart and them unable to hold any power anymore.

Get over your hate for the Left, and start hating the REAL enemy of the people... Trump.

Failure to use federal authority and budget to supply PPE, as well as Trumps firing of the Pandemic Response Team led to significant mortality rates in the US.

Eight months into the pandemic, over 80% of U.S. nurses reported that they are still reusing at least one type of single-use PPE, said a survey by National Nurses United, the country's largest registered nurses' labor union. From the pandemic's beginning, the Harvard study finds, "supplying PPE was delegated to a variety of actors: state and city governments, large hospital chains, and in some cases small networks of clinics." Washington could have used its spending power and its authority under the Defense Production Act to secure adequate supplies, if not immediately, then certainly by now.

Trump also failed by:

Not requiring mandatory universal paid sick leave for those unable to work due to COVID-19

His failure to not implement standards for occupational exposures

His early failure to not restrict travel until it was too late. The U.S. imposed restrictions on travel from Europe in mid-March, but by then it was too late. The virus had already spread so widely in the U.S. that when it arrived in a new state or region, it most likely came from elsewhere in the country. "This shows that any action to prevent introductions would need to be at the national level," the study finds, "and while the window for effective action was brief, it was missed."

His slow start was also damning to our Nations health, causing the virus to gain an early foothold. Throughout the first two months of the year, Trump ignored warnings from administration intelligence and health experts, dismissing initial signs of the pandemic as transient. Some critics believe he relied too heavily on Chinese reassurances because of his eagerness for a big trade deal. The early delay contributed to later testing shortages.

Mixed signals. Even after Trump declared an emergency and ordered a national lockdown in mid-March, he repeatedly sent false signals creating doubts he favored the actions he proposed. When a shortage of COVID-19 tests hampered the response, he said, "I don't take responsibility at all." Instead of creating a unified national response to what became the country's greatest health crisis, he declared action was up to the states and bashed governors seeking more federal help. Within weeks, he prematurely sought to end his own restrictions, pushing to restart economic activity lest a prolonged recession derail his reelection hopes.

Premature reopening. Even before his own April 30 deadline, Trump was urging states to resume economic activity, successfully persuading Republican-led states like Texas, Arizona and Florida to act even though they failed to meet federal guidelines. In a symbolic but significant move, Trump undercut his own administration's enforcement regimen by refusing to wear the protective mask that scientific advisers like Fauci repeatedly called the best way to curb the virus.

Ignoring reality. As the number of infections plateaued, then resumed to rise, Trump declared victory and switched his focus to economic revival and street protests on police crimes and broader racial issues. When his anti-pandemic task force held its first briefing in two months last Friday, Trump was absent. Vice President Mike Pence presented so optimistic a report that CNN's Dana Bash likened it to the infamous "five o'clock follies" where military briefers gave misleading accounts of alleged progress in the Vietnam War.

Sadly, Trumps COVID response will go down as the single greatest failure of the federal government in the history of the republic. Even if you don't have friends or relatives among the over 279,000 dead Americans, the adverse impact

on your children's education and the overall disruption of your lives is substantially worse than it needed to be. Overwhelmingly, that is because of the inadequate leadership of the Executive Branch.

America will take years to recover from Trumps failures, and we can never get back those he killed due to his faulty leadership. But it's not just Trump who is to blame... His supporters, the GOP, and his administration will also shoulder the responsibility for all the needless deaths when history is written.

So STOP trying to blame Dems for your failures!

I would stick on a few arrows and circles to point out the undigested chunks of grains on the surface , say its a virus and you'd probably believe me. You stupid gullable faggot, if you really wanted to prove it exists you would have to video tape yourself releasing the viral load in a sealed room and show that you are falling ill from it multiple times just like they do with other viruses. This has never been done with the non existant science fiction virus.

>This has never been done with the non existant science fiction virus

Alas, the causation of disease from this virus has been proven in countless studies in different animal models all around the world, so you can shove your COINTELPRO pilpul up your yid asshole

>many published studies have already demonstrated that SARS-CoV-2 fulfills Koch's postulates. Specifically, researchers isolated SARS-CoV-2 from COVID-19 patient samples, propagated the virus in cell cultures in the laboratory, and infected non-human primates with the cultured virus. The infected primates displayed the same signs of COVID-19 as humans, including lung damage and pneumonia. Finally, the researchers were able to detect the virus in the infected animals. All four of Koch's postulates are met, demonstrating that SARS-CoV-2 is the cause of COVID-19.

<https://archive.vn/adu3v>

Unless you would want to try and argue that researchers are specifically in a conspiracy about the existence of the virus, same as 1.6+ million people who were just actors that were paid to die, and there are just happens to be zero whistleblowers that would want to leak or release the material to prove that the virus is totally non-existent or is just a rebranded common cold/flu virus

"Scientists" are a joke. All of their research is made up and has never actually helped the human race. Their work is made out of thin air and is all product of their imagination which fails to paint the entire picture of the complex universe. It only provides a very narrow perspective of what is reality, which is why it never really works and destroys more than it helps other. These modern scientists are quick to refute faults in their own claims and will do anything to make themselves seem right than others. There already existed superior medicine and science in ancient civilizations for thousands of years from before christ which modern medicine has dismissed since it was either too complex to understand or too unprofitable for them. Modern scientists are masters of subversion who twist and hide the evidence of ancient remedies to make their defective products seen as superior so they can profit off the foolish population. Modern Medicine + Science has existed for only a few hundred years and I doubt it will exist for more than a few hundred more years and probably be completely forgotten a thousand years from now as some insane delusion. Which would you rather trust in something that has existed since the beginning of time or a scam thats only been around for a few hundred years?

Notes

- Diamond Princess: Cases are not included in the Nip government's official count. 380 of the 696 were asymptomatic. 14 are Burgers whose test results

weren't known until they left the petri-dish. The total does not include 3 employees of Nip's Health Ministry and 1 staff member of Nip Diet Secretariat, all of whom were infected while working on the petri dish. It does also not include fucktards who tested positive upon returning home: 45 in burgerland, 10 in Shitpostingland (one of whom died), 4 in Bongistan, 5 in Hong Kong, 3 in ISISrael, and 2 in Animeland.

- Legoland: The total includes 155 cases in the Faroe Islands.
- Frogs includes Guadeloupe, Saint Barthélemy, Saint Martin, French Guiana, Martinique, Mayotte, and Réunion. It does not include French Polynesia, which is listed separately.
- The United Bongistan includes Bongs, Wales, Northern Ireland, and Scotland. Jersey, Guernsey, the Isle of Man, and the Tax Haven Islands are listed separately.

Due to connection issues, the Coronian Cult might be late to this thread, but it's better to arrive late than never at all.

Coronian thoughts for this thread:

>The reward for devotion is not only answered prayers, but also enlightenment and inner peace.

>Honored in the new world shall be the innocent collateral casualties, for their deaths will not be in vain.

>Just like the ocean can quickly shift from calm waves to deadly storms, a cultist too should always be ready to turn his serenity into fury.

Prayer for this thread: Simple Prayer of Coronian Gratitude

Corona-Chan, my beloved Goddess of purification

Thank you for exposing the fragility of this corrupted globalist system and crashing it.

Thank you for sending myriads of our enemies to their graves.

But above all else, thank you for all the gifts you have given me. Corona-Chan, my love and gratitude for you is eternal!

Ignore and filter the nothingburgerfags, the hoaxniggers and the shills, for

they are doomed to a painful death. Never lose your hope and your faith in a better future, use your wisdom to survive the global collapse that is about to happen. Corona-Chan and the Coronian Cult loves all of you! Good luck, stay safe and have a nice thread.

Massive amounts of urns in China discredit official narrative about the number of deaths

>Yet, Chinese investigative outlet Caixin revealed that when mortuaries opened back up this week, photos revealed a far greater number of urns than reported deaths.

When does the tide completely go out and reveal the extent to which China has lost its bathing suit? Are there any major shipments or factory production numbers or anything that would irrefutably show how completely fucked they are? >long term corona-chan effects
Still unknown, anon. Not unless you consider 'six months' to be a long time. Rumors say that she can do permanent lung damage, and you may carry the infection in some form forever. Not clear whether you're still infectious, though. Bottom line, there isn't enough information out there and the earliest patients were CHinese, which means you can't trust any data on them.

don't forget India already has +900 cases

>The number of confirmed Covid-19 cases in India rose by a whopping 21 percent since yesterday to 873, the latest data from the ministry of health and family welfare (MoHFW) shows. This is a faster increase compared to the previous 24-hour-period, when the number of cases had risen by 12 percent to 724. The number of active cases rose 21 percent since yesterday to 775.

>India's trajectory is flatter than that of the US, which is the new global epicentre of Covid-19, with confirmed cases surpassing China. Yet, given the volatility in India's daily data over the past few days, it is too early to say whether the current trajectory will sustain, rise, or flatten in the coming days.

>Even going by the current trajectory, India's case count has doubled over the past four days. If this trajectory continues, the number of cases could shoot up to 10,000 cases over the next 16 days, and India could run out of hospital beds in May.

its interesting to see how differently each country is handling this and subsequently how serious. seems like initially because of the bullshit numbers coming out of china most countries where so focused on maintaining economic stability that they failed to ponder the human and economic ramifications that we see in our current situation. can they be forgiven? at the time most world leaders where basing their countries reactive measures on WHO guidelines. it was

obvious to almost everyone looking at the way the virus was spreading and well past the dictionary definition of a pandemic before they officially named it one. between questionable data, lack of transparency from china and the intentional delay by the WHO the response by most of the world was delayed by about a month while delusional politicians attempted to use the topic to campaign or fund raise. now quite a few countries seem to be in some version of lockdown from casual self imposed to government monitored but the daily increasing numbers suggest that the virus has already been fully spread among their respective communities. the lockdown seems like a way to placate people in weird times more than a solution.

Prediction:

Quarantine sectors will be implemented. You'll be free to move, if you're in a clean sector. Your sector, if it is not clean, may be placed at various levels of quarantine. Sectors will be, presumably, rather small, in terms of population. You'll be able to shop for ever basic category of thing, that's about it. Movement between sectors will be limited, and only with passes, and, basically, you won't really want to do it unless you have to.

Wrong.

1. People all week were at home.

2. People are all weekend at home.

Therefore there should be no difference between the weekend and the week.

Yet there is.

Reason:

99% of users are glow niggers.

The robotic soldiers is not sophisticated enough to be used yet and (((them))) need the people to fix the robots, however it is too risky at this current stage because everyone is very angry as the red angry bird. Where's the proof that (((they))) are using the robots?

They do the self-talking routine. Of course, people have real conversations, so sometimes you can't tell, but it's a derail in this case, of course.

China created the virus, it escaped. It's China's 3 mile island, but it's the worst WMD disaster in world history because they fucked up containment.

And Chinese people need to stop eating human flesh.

Royal Pimp of Thailand isolates with 20 hoes in 4 star ho-tel

<https://www.msn.com/en-sg/news/world/coronavirus-thai-king-self-isolates-in-alpine-hotel-with-harem-of-20-women-amid-pandemic/ar-BB11QTqw?ocid=spartandhp>

>Thailand's controversial king has been self-isolating in a luxury hotel in the Alpine resort town of Garmisch-Partenkirchen with his entourage.

>King Maha Vajiralongkorn, also known as Rama X, is said to have booked out the entire Grand Hotel Sonnenbichl after the four-star hotel received "special permission" from the district council to accommodate his party.

>The 67-year-old king's entourage included a "harem" of 20 concubines and numerous servants, reported German tabloid Bild. It is unclear if his four wives are living in the hotel with the rest of the group.

Any country on a war footing with its neighbors, for the entirety of human history, lies about these things to not appear weakened and give the other country a reason to try anything. The Spanish flu only got its name because all other countries that had outbreaks, were fighting World War 1 and censored news about it. Spain was neutral and did not. So press reports only came out of Spain, hence the Spanish flu.
Israel has a major outbreak and is lying like Iran.

Chloroquine phosphate. See thread on a aquarium forum from 2015: <https://www.reef2reef.com/threads/chloroquine-phosphate.192309/> (archive not working).

And what about federal income tax?

And what about state income tax?

And what about property tax?

There is no freedom as long as you cannot own property.

Sales tax is the only form of tax which is compatible with the spirit of the

CLEANING OF DISPOSABLE MASKS

Some investigations have indicated that the hydrophobic coating on the filter
material of face masks is degraded when it is washed in surfactants (soap and
water) really? and polar solvents (-OH).

This coating is a trade secret but has to be a siloxane.

Siloxanes are used in cosmetics and most in the family are generally recognised
as safe.

Siloxanes are available in native form in many products such as tyre shine,
waterproof clothing spray, anti foaming agent and masonry additive.

I suggest that filter material can be decontaminated with 70% -OH or 3% H2O2,
then reproofed by spraying it with Polydimethylsiloxane (\$50 AUD/1L) and
drying.

I suggest that 3M use perfluoropolyethersiloxane.

Sydney anon here. We are reduced to work, shop or doctors nationwide as of Morrison's decree a few minutes ago. Else, stay at home under threat of excessive fines. No more than one other person can congregate with a self-isolated family. I have my travel authorization papers as of yesterday in b4 tits of gtfo. I'd have to redact most of it, and I'm not going to because it can still easily dox me to my employer. There are two papers. The first is somewhat generic with a government logo and refers to the other one which has personal details such as full name, date of birth, essential position and employer. It is titled "Essential Employee Authorisation" and must be accompanied with the "Letter of Authority". The ABN number of the business is listed along with a statement of work. Phone numbers and e-mail contacts are printed. The other paper is in the form of an approval by the employer that the position is designated as essential. There is further contact information provided. I was advised this should be presented on demand to military and police if stage 3 is declared. The PM came just short of this declaration tonight, Sunday 29 March.

I don't believe P rated filters have this problem because they're designed for environments where oils would inhibit any electrostatic filtration action. To recharge an existing n95 filter you would have to decontaminate it, then recharge it's static charge.

So far the CARES Act doesn't seem all that bad [yet], as in no (((strings attached goyim))) but haven't read all of it yet. No mention of any microchip mandate or social credit score system roll out. Tried to key up "5G" in the finder but only came with regulatory codes ("microwave towers" were mentioned once for emergency funding purposes). No mention about firearms or any kind of gun grab attempt either. Very shocking considering this was sponsored by a Democrat.

>>85519

Dude, I need these for survival and I don't trust hospitals because they'll become death traps no matter how much I try helping them out. Sorry, but I also need these masks because I actually do DIY fortification work with bulletproof fiberglass paneling (when you saw this shit you must use masks because you can't be breathing in tiny sharp particles that will tear your damn lungs apart!) I only have the masks because I was lucky to have some before all this corona shit went down. Also have a P100 respirator but that's more for going out in a public area where there is much higher risk.

Static charge refers to blow melted plastic which develops a static charge through it's manufacture.

>>85518

Since the cat is already out of the bag, I'll let you in on a not so secret secret.

If a product says it's hepa, and specifically says it filters out 95% of 0.3 micron or larger particles, it's no different than n95.

If it says it filters out 99% of 0.3 micron or larger particles, it's an n99 material.

If the filter media isn't paper, you can make masks out of it.

fiberglass in polyester resin dust is not like asbestos. I think it gets expelled eventually from the upper airways. I knew some surfboard shapers what never used masks, the spastics thats what they told me. Plastic dust is pretty bio inert.

But use a respirator for anything that makes dust or fumes, I do.

At a critical time like this, with endless wars, unimaginable debt and a global financial and health crisis guess who's trying to get us into war w Iran.

Fucking Bibi and Pompeo and the above article details just how hard Israel has been provoking Iran to kill US troops so Trump will be forced into war.

That quote fr Bibi about using up America and then letting it blow away like a leaf or whatever. Absolutely fucking true and still an active goal.

I don't buy this shit that Trump is against war, he knows what Bolton and Pompeo are about and he pulled out of the Iran deal and gave the job of sanctioning Iran to a born in Israel Jewess. The amount of blatant pro Israel Jews Trump appoints that you never hear about is insane.

>>85528

Yes, these panels do produce a lot of dust and particles when cut and you must wear a lot of protective gear (unless you don't care about health issues later). What also sucks is if you get some of it on your skin (I did once), it will irritate the skin a lot for days. Thus you need gloves, goggles, masks and long sleeved shirts when working with the fiberglass panels (plus the right kind of equip to saw through it properly because it is tough). It's always a two man job and I hire a trusted friend to work with me, simply because the panels are so damn heavy. For doomsday preppers I'd recommend the investment and labor if you can afford to do it and have the time.

You're better off getting a UV-C sanitizer. The copper mesh is ineffective when compared to heat or UV-C.
>but muh virus particles in the mask
They won't get out as long as the filter isn't damaged or beaten. UV-C will also penetrate some of the filter material.
A UV-C sanitizer can also be used to treat water if things get really bad.

The niggernet spazz outs have begun in full force now and on top of that I had to deal with a power outage just when I was about to click the reply button. I took advantage of the situation and went to bed to get some sleep, I just woke up and have no idea when the power came back. On top of that, my niggernet is slow as molasses.

Update on the Brownzilian state of Pernambuco and the city of Recife for 28 of March

Late night all the way to the morning power outage Edition

We currently (((officially))) have 68 confirmed cases and 5 confirmed deaths. The new death was 69 YO woman with leukemia. Despite constant attacks on the lockdowns from Bolsonaro and his supporters, Recife's mayor defends the importance of the soft lockdown while referencing what happened in Milan, which ended its lockdown too soon and ended up having thousands of new cases per day. Despite the government's requests to the population to stay in their homes, poorfag areas of the city still don't give a fuck and people are going outside and working as usual.

New measures

>Charity group giving free meals to Recife's homeless population.

One interesting thing worth noting is that the homeless are almost completely unaware of Corona-Chan. One of them asked the charity workers why are they wearing masks and being so careful, which prompted one of the workers to explain the situation to them.

>A field hospital for blessed Recifenses is being built outside the Women's Hospital

>Fernando de Noronha's airport was closed for cleaning after one the workers there was confirmed to be blessed. The blessed worker is a 48 YO man.

They want hungry desperate people rioting in the streets, cause in the end, they will beg to be "taken care of" by big brother.

Reposting from the survival thread:

<https://www.thebeijinger.com/blog/2020/02/18/how-reuse-and-dispose-your-masks-safely>

>"Of these options, IMC Beijing concludes that oven-dry disinfection (heating at

70 degrees Celsius for 30 minutes) had the least damaging effect on the filtering mechanism, allowing filtration of particles to remain at above 95 percent. Meanwhile, alcohol spraying disinfection and steamer wet heat disinfection either caused irreparable damage to the mask's filtration abilities or to the structure of the mask itself. Despite COVID-19 being sensitive to ultraviolet rays, IMC states that "the inactivation effect of viruses in mask fibers, which cannot be directly observed, is unknown. Therefore, [ultraviolet disinfection] is not recommended."

>"... a joint study from Fudan University Shanghai Medical College and Ministry of Education/Medical Molecular Virology Laboratory of Health Committee and School of Public Health, recently found that disposable medical masks can be disinfected after use by placing them in a ziplock bag and blasting them with an electric hair dryer for 30 minutes (also a way to kill time). This method should not affect the mask's original filtration while inactivating any virus particles that may be present."

Very sketchy sources, but if you're in a bind with no other alternatives, maybe it's worth a try

Dr. Andres Bircher originated from a dynasty of doctors, welcome dear Dr. Andres Bircher. One of the pioneers of naturopathy, herbalism - holistic medicine. He has made many, he was chief physician, surgeon, physical therapy, etc.

What is Dr. Andres Bircher's opinion about the coronavirus.

"The coronavirus and its symptoms correspond to a flu and every year there is a flu epidemic, this is normal, what is new is that they get such beautiful names. A very special, new virus has been said but it is a flu epidemic, in every flu epidemic people have died who have too little resistance. The biggest problem with the Therpaie today is that you don't support the body in its defense but that you lower the fever. The fever is done by the body on purpose, when you are healthy the body makes a little over 40 degrees fever. This chance is missed with fever reduction and therefore people die again and again.

If you are young enough and heart-healthy you can help to overcome this (corona) flu with hypothermic baths.

When the body temperature increases from 36 degrees to 37 degrees, the immune system's performance doubles?

Dr. Andres Bircher: "Yes, that is important, and from 37 to 38 again a doubling, ..."

"The fever reduction is a sabotage of the health care system and it's a mistake."

"Doctors are only trained in pharma therapy and they teach you that you have to lower the fever. "

"Most therapy is symptom control, the symptoms are seen as the enemy. The symptoms only arise when the body has defenses, every symptom fight weakens our defense system and therefore our diseases chronically."

Luckily, I got a tunnel to a server at home and I could use it to post and retrieve the ban message.

The images in the post aren't available, however.

>My apologies.

I've had my share of dealings with the moderation team here. A lot of you seem competent, but keep in mind you got at least one mod that's being extremely overzealous in his job.

Notice that I did appeal the ban, claiming I was not the asukhapa. I believe that mod could have pulled my post history and saw me posting in other threads instead of raiding the board.

Unless the appeals are also being abused and spammed, the mod saw the appeal, read it, and kept the ban in place anyway.

I might have not been the most polite in the appeal message, something I believe to be understandable considering the circumstances.

I also moderated some smaller boards back when this place was 8ch, and I know how hard that shit job is.

I'm no compsci major, but I know a bit of how unicode works and how computers read/present data, so I find fuckery like that highly amusing.

I did try to copy paste it into a post, since it looked like only 4 characters, but my browser spiked to 100 CPU usage for a few seconds. Meaning, those 4 corrupted characters were, most likely, actually several hundred control characters mixed with alphanumeric characters. I decided against posting, but by then I was already banned anyway.

>one minute the tread is unreadable because of all the scratches and the next is all clean like nothing ever happened

On one hand, it's good moderators are doing their job and clearing shit-posts (giving space for shitposts :^), on the other that should also give anons pause for thought: purging threads with such ease should always scare someone. The wrong person in charge of it could quickly start purging "wrongthink" and shift this board onto his own personal line of thinking.

I know you're still here, Imkikey, you turk fuck. After all this years, you still can't let it go. I notice your posts on other threads and I genuinely hope the mods don't ban you, so you can impotently rage on as you always did.

Hard to, when you're banned :^)

Not gonna clog up the rest of the thread with this however, just gonna give you a thumbs up and wish you and the rest of the team the best. It's a thankless job, but know that you've kept an important place in the net for me from going to shit more than once, and I'm grateful for that.

To add to the thread, some news from Poortugal:

>Spain next door is being retarded as fuck
>government is incompetent, people are rebelling against the quarantine
>mass infections spreading now
>Poortugal looks on, everyone shits a brick
>mass-quarantine, not even waiting for government orders
>companies shut down, employees working from home or not working at all
Everything looks in order. Oh wait, that's the North of Poortugal.
>southniggers decide now is the best time to self-isolate in the fucking beach
>a couple of bridges are filled with cars going south
>everyone going to their beach house for some well earned vacation :^)
>they don't even stay the fuck home, luxurious beach houses, and those niggers still walk around and about
>"I'm just running and exercising outside!"
>"Well, I HAD to get my hair done!"

>mostly upper-middle class and some rich fags with a "this won't happen to ME!" mentality

Hope the lot of them fucking dies, stupid fucks. The south beaches are a preeminent spot for tourism (bongs really like them for some reason) and if there's one place I'd go to catch corona, it would be there.

The north got a few infections in industrial zones, mostly from people who work/travel with multinationals and visited other companies. I know one confirmed case where they got it from Italy. It started spreading like wildfire. One day we had 3-4 cases, the next, we had 80 suspicions that gave way for 200 cases and 600 suspicious cases, and we know sit at 5000 infected, 100 deaths. Shit happened so fast, you could see folks going "just a flu, bro" at lunch go

to "we're doomed" by dinner time.

I'm not even sure how to tell any of them we're also going into a financial crisis worse than 2008, that one hit Portugal really hard.

i know there's a metric fuck ton of reasons to not want 5G, chief among them is Chink spying, since most of the 5G network is being built by a chink company called Huauei and i can even agree that powerful electrical waves flying through the atmosphere can somehow mess with the brain. but the idea that chinks actually managed to build a virus that can be controlled or triggered with a 5G antenna, or that 5G itself is causing corona chan is beyond unbelievable

Lurkanon here with some OC and a (probably dumb) question. is there any reason we aren't looking at these numbers per capita? Not trying to put a positive spin on this or anything, i'm just not sure why those wouldn't be valid numbers.

Bug pop=1.4 bil with about 81k infected and 3k dead

the percentage of infected and dead per capita is statistical zero or whatever you math fags would say about a number that's practically less than zero. keep in mind, Im also a functional retard so go easy on me

It's been gradually headed in that direction for years, anyone who has paid attention knows the US is hijacked and subverted by radical leftists today. ZOG's neo-cons included!

Ironically though, the US has done this before back during WWII our parents used to donate scrap metal to companies that were FORCED to produce Army equipment for war time purposes. It's actually nothing new.

Well if you want to delve into conspiracy, they've actually have been spraying barium and aluminum oxide particles or "nano-dust" via chemtrails for decades too. I once read about how this effectively can create some sort of "smart" surveillance system to pinpoint objects/targets by drones and satellite imagery down to a blade of grass with fine precision. Take what you will from that. 5G was actually referred to in the CARES Act recently (for more funding) as "microwave towers" so they even admit this 5G can be used for radar tracking and all.

I don't know. From what I read, he was the one to read the full and uncensored budget in a long time. I think this is a case similar to that Worst Korean health official that killed himself early on in the outbreak because he had all the access to information about the virus and knew the situation was hopeless. The finance minister probably thought the same thing and decided to jump ship rather than being suicided by a malicious party.

don't you guys find it odd how numbers are going up so fast in Merica?

their suspected cases have already surpassed Iran and Italy, both countries blessed weeks before Merica. and this with the CDC refusing to test people.

Maybe Iran is shit at counting and reporting numbers but i doubt Italy is just

as shit. I also doubt info suppressing censors work faster in Italy that they work in Merica, not to mention corona chan is very evenly spread across pasta territory but burgers only have their coastlines blessed
did China made sure to bless Merica as soon as possible before mainstream media picked up the story?
are there more people living in burger coasts than in the whole of Italy?
are burgers way more incompetent than pastas containing corona chan?
are pastas better than burgers censoring data to avoid mass panic?

America is using a different test than the rest of the world. I'm not saying
it's fine in the USA, it is bad. But you are comparing a USA test to a chink
test that can be wrong between 50% to 80% of the time.

You also need to compare per capita. When you look at per capita, and then look
at things like China's lost mobile subscribers, or the amount of urns, and
compare it to other places that have seen an outbreak, it's almost undeniable
China completely lied about their recovery and their number of infected. And, as
we've seen from Germany and France, The West isn't going to quarantine shit
skins who they think will riot. This includes the blacks in the USA and all
those "refugees". If they are properly tested and treated (doubtful), the
numbers might be larger than people expect. I'm viewing Corona in the West as a
taste of the third world we've imported.

Realistically, it's a complete breakdown of leftist politics. The fear of being
seen as racist didn't allow people to react property to Chinese spreading the
disease. Trump was attacked when he shut the border with China, and he did it
way too late. Italy had the same problem. You had government officials in NYC,
Lombardy, New Orleans telling people to go out and not be afraid of Chinese,
don't be racist. And now we're about to see disease spread very rapidly through
the "poor" i.e. shitskin areas of the West. And the liberals are going to try
their best to paint it as how the evil white racists didn't do enough to help
the "underprivileged." Just be prepared when things get worse in the West.

You're going to see a lot of well off Whites say they aren't seeing much, and
the third worlders pretending to be first world get absolutely ravaged.

More people use to live in burger coasts than in the whole of Italy. Being more
incompetent than the people I've seen around here in Pastaland looks like a tall
order. We are not bad at censoring datas, but people are actually panicking
here. Shekels are almost over and Easter is coming - I bet next week we will see
a few "pasta chimpouts" against supermarkets and ZOGBots. They are indeed causing
the panic to force us to accept tracking apps and stuff like that. Pasta
tracking app is almost ready, it will be made by a company called Vetrya.

Man charged after New Jersey police break up alleged 'Corona Party' with 47 people

>Law enforcement in Ewing Township, N.J., reportedly broke up a party Friday night with 47 people in a small apartment, despite recommendations from health officials amid the coronavirus pandemic.

>The department confirmed it received an anonymous call about the alleged party Friday evening. Officers immediately dispersed the gathering that "the renter of the apartment called a 'Corona Party,'" according to a Saturday statement.

>The apartment renter, Wade Jackson, 47, was issued summonses for allegedly obstructing the administration of law or other governmental function and violating emergency and temporary acts, according to the statement.

>New Jersey Gov. Phil Murphy (D) released an executive order earlier this month banning "gatherings of individuals, such as parties, celebrations, or other social events."

>Murphy tweeted Saturday, "Can't believe I have to say this at all, let alone for the second time. But here we are. NO CORONA PARTIES. They're illegal, dangerous, and stupid. We will crash your party. You will pay a big fine. And we will name & shame you until EVERYONE gets this message into their heads."

>New Jersey reported 2,289 new coronavirus cases Saturday, with a total of 11,124 in the state. At least 140 people have died in New Jersey from the virus, Murphy told reporters Saturday.

>"One hundred forty invaluable, precious, unexpendable souls who are no longer with us in the Garden State because of this virus," he said.

>Two Lakewood, N.J., residents were charged earlier this week after police broke up a gathering of 25 people at a school, NJ.com reported.

Great post.

>Realistically, it's a complete breakdown of leftist politics.

Interestingly enough, the opposite is happening in Brownzil, it's a complete breakdown of rightist politics. Bolsonaro wants the country to carry on as if nothing was happening for the sake of "muh economy" and his supporters are parroting his anti-lockdown speeches as numbers rise exponentially. They're even making up a story about how São Paulo's governor is inflating the numbers for political reasons, which is complete bullshit. All the governor did was authorize EMTs and doctors to register a death as Corona-Chan at their own

discretion when a test is not available, if they believe that she the cause of death. If São Paulo's government really wanted to inflate the numbers and cause panic, their department of health wouldn't be hiding "mild" cases. The right's jewy response to Corona-Chan is making the Brownzilian left look better and better by the minute. Even motherfucking Lula and his lackeys are making more sense than Bolso and his supporters.

>are there more people living in burger coasts than in the whole of Italy?

I think it's mostly this. The coastline of the USA, especially east coast, are super heavily populated and densely so. The USA also has per capita and in raw numbers way more air traffic and travel tourism too. Combine that with a retardedly botched response from government on literally all levels with pressure from high level business and left wing media and NGO's to not shut shit down in the name of money and political correctness and I think we have the answer.

>Trump or push for Bill Gate's subcutaneous (mark of the beast) tracking microchips?

Another Argie here.

I swear I feel the martial law (estado de sitio) in the air. Tell me how this stupid pretense of a quarantine can help us in avoiding spreading this shit. I'm from Buenos Aires city (Caballito) and the few times I left my place I saw plenty of retards walking aimlessly, arguing with cops, walking with kids, a lot of regular cars going God knows where.

The only thing that can make us not going full martial law is Alberto being a little bitch.

Sounds like Bolso is weighing the herd immunity option like the UK was. But isn't it a meme that's going to result in both mass infections and, because of said infections, a broken economy?

>Germany's numbers

I too find them suspect. They're a clear outlier amidst a storm in other EU countries, and Germany's got a yuge Turkish/muzzie population and /ourgirl/ rips through them like paper because they live in intergenerational homes and don't give a fuck about the quarantine. My money's on Germany cooking their books as a gambit to keep the EU meme going, since it's been collapsing in realtime for the last month.

>Static charge refers to blow melted plastic which develops a static charge through it's manufacture.

Blow moulding requires lubricant to be applied to the moulds for mould release.

This would transfer to the piece. Siloxanes (hydrophobic) would be the lubricant of choice for bottles and other shapes but I suggest that a hydrophilic lubricant is used for manufacture of polyester weave N95 masks. A brief investigation provides polyethylene glycol (PEG 400) as a candidate for such a mold lubricant/ hydrophilic impregnation of respirator filter material. This is listed as low toxicity, readily available and cheap. The suggested procedure would be to decontaminate your Filter material with 70% -OH followed by reimpregnation with PEG 400.

I should point out the need to chemically decontaminate the mask routinely as it would be a fomite.

Disregarding the fact that we're talking about extremely low digit numbers, it's normal that pneumonia-related deaths increase during flu season. You wouldn't say that there's an unusual lack of pneumonia-related deaths during summer, would you? The russians have far bigger problems than to worry about a few statistically insignificant pneumonia cases.

A chart is only as good as the data backing it, yes, but a counter example is needed to prove your claim. If you don't trust the data, and you shouldn't, you can at least spot where they wish to emphasize their lies.

Reddit isn't exactly know for freedom of speech, dissent or going against the official narrative. All types crawl in here once they realize their usual hugbox safe space is a shithole and they need somewhere to talk about real subject matter. The news is telling us once a patient recovers they become immune. What they don't tell us is the immunity is temporary and since covid-19 damages the lungs permanently multiple infections through out life will eventually lead to death due to diminished lung capacity. This epidemic reeks of egghead manufactured depopulation. Once they've used up the goyim for their labor they want them to die to avoid paying out government retirement checks.

For all the medfags I know are eating these breads.

Suspicious were high regarding the state level banning of potential treatment, so delving deeper I found this gem that, for some reason, has not been discussed or widely disseminated.

<https://virologyj.biomedcentral.com/articles/10.1186/1743-422X-2-69>

Conclusion

Chloroquine is effective in preventing the spread of SARS CoV in cell culture. Favorable inhibition of virus spread was observed when the cells were either treated with chloroquine prior to or after SARS CoV infection. In addition, the indirect immunofluorescence assay described herein represents a simple and rapid method for screening SARS-CoV antiviral compounds.

Have a good one, Nordanon out.

I know right? I used to love the guy and deep down I still do, which is why I still refer to him as Bolso. Him and his supporters have suddenly gone full retarded and Qboomer-ish. Brownzilian twatter has become unbearable and unusable because of them, they're flooding it with posts saying the virus is fake and the governors are plotting against Bolsonaro, ordering their state health departments to assign any death as Corona-Chan in order to inflate the numbers to create panic, crash the economy and have him impeached. But if that were true, the health departments wouldn't be hiding mild cases and deaths, and hospitals wouldn't be sending people with serious symptoms home and refusing to test them. If there's anyone lying here it's the ministry of health by avoiding mass testing and not counting asymptomatic cases. Bolsonaro supporters seriously believe the economy is above everything else, they're not even aware of the huge financial crisis that is coming and that our money will soon be worthless because it's tied to the dollar.

""gook" comes from the Korean word "국" (guk), meaning "country",[9] "한국" (hanguk), meaning "Korea", or "미국" (miguk), meaning "America".[10] For example, U.S. soldiers might have heard locals saying miguk, referring to Americans, and misinterpreted this as "Me gook."

>Realistically, it's a complete breakdown of leftist politics. The fear of being seen as racist didn't allow people to react property to Chinese spreading the disease. Trump was attacked when he shut the border with China, and he did it way too late. Italy had the same problem. You had government officials in NYC, Lombardy, New Orleans telling people to go out and not be afraid of Chinese, don't be racist. And now we're about to see disease spread very rapidly through the "poor" i.e. shitskin areas of the West. And the liberals are going to try their best to paint it as how the evil white racists didn't do enough to help the "underprivileged." Just be prepared when things get worse in the West. You're going to see a lot of well off Whites say they aren't seeing much, and the third worlders pretending to be first world get absolutely ravaged.

The border was never shut, we had flights from (and to, containing all of our PPE) China the whole time.

It's conceivable that politicians want to preserve the stock of chloroquine products for when their most effective use is determined. That might mean requiring a prescription to stop a run on self medicating, or clamping down on dictors who hand it out as a preventative to hypochondriacs. Are your politicians this shrewd? More likely they listen to some medical honchos and introduce bias from what they guess will help them politically.

>>85846

>Governments have been so fucked on each others treaties that they are terrified of the possibility that /ourgirl/ will go on vacation for a minute.

There is still a small chance to go back to the old world, but that window is becoming progressively smaller with each passing day. We will most likely witness kikes switching to red mode again, only this time globally.

>Really hot weird.

Let's hope that you are right

>fear-porn

Someone post that old image of normal people being shocked when something horrible happens and one guy starting to grin with 4chan or 8chan (I forgot) written above him. I only wish I don't get killed by the micro-jew so that I can witness some more interesting happening.

>>85866

>What do you think they will do when there isn't something to stop them?

Expect a lot of fake positive tests and anyone questioning the authority being sent to gulags/concentration camps. Hell, they don't even need the tests, they can accuse you of interfering with their emergency efforts for most petty things.

They are using this hysteria and keeping people at home so they can't witness shitskins being settled en masse (remember how the new major wave strangely coincided with this virus outbreak), the last of their rights being taken away and them installing mysterious antennas under sewer shafts :>)

UN warns of global food shortage caused by coronavirus measures

>The United Nations Food and Agriculture Organization warned of global food shortages caused by measures to stem the spread of the novel coronavirus.
>"The worst that can happen is that governments restrict the flow of food," Maximo Torero, chief economist of the UN Food and Agriculture Organization, told the Guardian.
>Harvests have been good and staple crops remain in demand, but a shortage of field workers brought on by the pandemic and a move towards protectionism – tariffs and export bans – could lead to problems in the coming weeks, Torero said, according to the report.
>"All measures against free trade will be counterproductive. Now is not the time for restrictions or putting in place trade barriers. Now is the time to protect the flow of food around the world," Torero added, the news course reported.
>Some countries have begun to protect their food supplies by restricting exports, which Torero reportedly said could lead to an overall decrease in trade and a subsequent decline in food production.
>"Trade barriers will create extreme volatility," warned Torero. "[They] will make the situation worse. That's what we observe in food crises."
>Another measure that could threaten the world's food supply is that nations have issued stay-at-home orders at varying levels of enforcement. If agriculture workers are legally unable to harvest crops, it could cause a lapse in food flow.
>"Coronavirus is affecting the labour force and the logistical problems are becoming very important," said Torero. "We need to have policies in place so the labour force can keep doing their job. Protect people too, but we need the labour force. Major countries have yet to implement these sorts of policies to ensure that food can keep moving."
>The report from The Guardian comes as grocery stores in the U.S. have been bombarded with customers racing to stock up on produce, nonperishable items and paper goods amid the coronavirus outbreak.
>However, American food supply experts, including Department of Agriculture Secretary Sonny Perdue, have warned that Americans should not be concerned about immediate food shortages.
>"This is a demand issue, not a supply issue," Heather Garlich, vice president of media and public relations at FMI, the food industry association formerly known as the Food Marketing Institute, told Politico. "The supply chain isn't broken. The warehouses are pushing out as much inventory as possible in a 24-hour period."

Figures, at least the mobile data from the past few months and the recent urn reports give us better stats.

I don't know if I should be concerned or ambivalent with that info. If most tests were being conducted in urban centers where the virus is hitting hardest, then I guess I should worry too much.

>A large wave of chinks rushing a port to return to the mainland from Hong Kong,
before the CCP closes its borders

Why are they closing the borders? It's a blessing in disguise for bug protesters
since I'm assuming most of the returnees are chink triads who are in part
responsible for harassing them.

The stated reason was to prevent foreigners from bringing Corona-chan back into
the CCP. I think it's mostly to keep people out and not let anyone find out how
bad things really are in China.

And I'm sure they forgot to test the people 2-3 million who fled before the
hubei quarantine and those who ate in the 40,000 buffet.

Update for CDC-Land

<https://nitter.snopyta.org/wsbtv/status/1244407102896066560#m>

2,683 cases (Up 237), 83 deaths (Up 4), 678 hospitalizations (Up 18)

Not a dramatic increase like yesterday. Here's some more pics of /ourgirl/ including an ancient meme being subverted.
